§ 608f. Repealed. Pub. L. 89-106, § 9, Aug. 4, 1965, 79 Stat. 432

Section, act May 12, 1933, ch. 25, title I, §8f, formerly §8(5), 48 Stat. 34; renumbered §8f and amended Aug. 24, 1935, ch. 641, §7, 49 Stat. 762; Oct. 8, 1940, ch. 759, 54 Stat. 1019, prohibited, except in specified cases, the shipment of grain from public grain warehouses to other warehouse without cancellation of warehouse receipts to avoid conflict with other laws regulating warehousemen.

§ 609. Processing tax; methods of computation; rate; what constitutes processing; publicity as to tax to avoid profiteering

(a) To obtain revenue for extraordinary expenses incurred by reason of the national economic emergency, there shall be levied processing taxes as hereinafter provided. When the Secretary of Agriculture determines that any one or more payments authorized to be made under section 608 of this title are to be made with respect to any basic agricultural commodity, he shall proclaim such determination, and a processing tax shall be in effect with respect to such

commodity from the beginning of the marketing year therefor next following the date of such proclamation; except that (1) in the case of sugar beets and sugarcane, the Secretary of Agriculture shall, on or before the thirtieth day after May 9, 1934, proclaim that rental or benefit payments with respect to said commodities are to be made, and the processing tax shall be in effect on and after the thirtieth day after May 9, 1934, and (2) in the case of rice, the Secretary of Agriculture shall, before April 1, 1935, proclaim that rental or benefit payments are to be made with respect thereto, and the processing tax shall be in effect on and after April 1, 1935. In the case of sugar beets and sugarcane, the calendar year shall be considered to be the marketing year and for the year 1934 the marketing year shall begin January 1, 1934. In the case of rice, the period from August 1 to July 31, both inclusive, shall be considered to be the marketing year. The processing tax shall be levied, assessed, and collected upon the first domestic processing of the commodity, whether of domestic production or imported, and shall be paid by the processor. The rate of tax shall conform to the requirements of subsection (b) of this section. Such rate shall be determined by the Secretary of Agriculture as of the date the tax first takes effect, and the rate so determined shall, at such intervals as the Secretary finds necessary to effectuate the declared policy, be adjusted by him to conform to such requirements. The processing tax shall terminate at the end of the marketing year current at the time the Secretary proclaims that all payments authorized under section 608 of this title which are in effect are to be discontinued with respect to such commodity. The marketing year for each commodity shall be ascertained and prescribed by regulations of the Secretary of Agriculture: *Provided*, That upon any article upon which a manufacturers' sales tax is levied under the authority of the Revenue Act of 1932 and which manufacturers' sales tax is computed on the basis of weight, such manufacturers' sales tax shall be computed on the basis of the weight of said finished article less the weight of the processed cotton contained therein on which a processing tax has been paid.

(b)(1) The processing tax shall be at such rate as equals the difference between the current average farm price for the commodity and the fair exchange value of the commodity, plus such percentage of such difference, not to exceed 20 per centum, as the Secretary of Agriculture may determine will result in the collection, in any marketing year with respect to which such rate of tax may be in effect pursuant to the provisions of this chapter, of an amount of tax equal to (A) the amount of credits or refunds which he estimates will be allowed or made during such period pursuant to section 615(c) of this title with respect to the commodity and (B) the amount of tax which he estimates would have been collected during such period upon all processings of such commodity, which are exempt from tax by reason of the fact that such processings are done by or for a State, or a political subdivision or an institution thereof, had such processings been subject to tax. If, prior to the time the tax takes effect, or at any time there-

after, the Secretary has reason to believe that the tax at such rate, or at the then existing rate, on the processing of the commodity generally or for any designated use or uses, or on the processing of the commodity in the production of any designated product or products thereof for any designated use or uses, will cause or is causing such reduction in the quantity of the commodity or products thereof domestically consumed as to result in the accumulation of surplus stocks of the commodity or products thereof or in the depression of the farm price of the commodity, then the Secretary shall cause an appropriate investigation to be made, and afford due notice and opportunity for hearing to interested parties. If thereupon the Secretary determines and proclaims that any such result will occur or is occurring, then the processing tax on the processing of the commodity generally or for any designated use or uses, or on the processing of the commodity in the production of any designated product or products thereof for any designated use or uses, shall be at such lower rate or rates as he determines and proclaims will prevent such accumulation of surplus stocks and depression of the farm price of the commodity, and the tax shall remain during its effective period at such lower rate until the Secretary, after due notice and opportunity for hearing to interested parties, determines and proclaims that an increase in the rate of such tax will not cause such accumulation of surplus stocks or depression of the farm price of the commodity. Thereafter the processing tax shall be at the highest rate which the Secretary determines will not cause such accumulation of surplus stocks or depression of the farm price of the commodity, but it shall not be higher than the rate provided in the first sentence of this paragraph.

(2) In the case of wheat, cotton, field corn, hogs, peanuts, paper, and jute, and (except as provided in paragraph (8) of this subsection) in the case of sugarcane and sugar beets, the tax on the first domestic processing of the commodity generally or for any particular use, or in the production of any designated product for any designated use, shall be levied, assessed, collected, and paid at the rate prescribed by the regulations of the Secretary of Agriculture in effect on August 24, 1935, during the period from such date to December 31, 1937, both dates inclusive.

(3) For the period from April 1, 1935, to July 31, 1936, both inclusive, the processing tax with respect to rice shall be levied, assessed, collected, and paid at the rate of 1 cent per pound of rough rice.

(4) For the period from September 1, 1935, to December 31, 1937, both inclusive, the processing tax with respect to rye shall be levied, assessed, collected, and paid at the rate of 30 cents per bushel of fifty-six pounds. In the case of rye, the first marketing year shall be considered to be the period commencing September 1, 1935, and ending June 30, 1936. Subsequent marketing years shall commence on July 1 and end on June 30 of the succeeding year. The provisions of section 616 of this title shall not apply in the case of rye.

(5) If at any time prior to December 31, 1937, a tax with respect to barley becomes effective pur-

suant to proclamation as provided in subsection (a) of this section, such tax shall be levied, assessed, collected, and paid during the period from the date upon which such tax becomes effective to December 31, 1937, both inclusive, at the rate of 25 cents per bushel of forty-eight pounds. The provisions of section 616 of this title shall not apply in the case of barley.

(6)(A) Any rate of tax which is prescribed in paragraphs (2) to (4), or (5) of this subsection or which is established pursuant to this paragraph on the processing of any commodity generally or for any designated use or uses, or on the processing of the commodity in the production of any designated product or products thereof for any designated use or uses, shall be decreased (including a decrease to zero) in accordance with the formulae, standards, and requirements of paragraph (1) of this subsection, in order to prevent such reduction in the quantity of such commodity or the products thereof domestically consumed as will result in the accumulation of surplus stocks of such commodity or the products thereof or in the depression of the farm price of the commodity, and shall thereafter be increased in accordance with the provisions of paragraph (1) of this subsection but subject to the provisions of subdivision (B) of this paragraph.

(B) If the average farm price of any commodity, the rate of tax on the processing of which is prescribed in paragraphs (2) to (4), or (5) of this subsection or is established pursuant to this paragraph, during any period of twelve successive months ending after July 1, 1935, consisting of the first ten months of any marketing year and the last two months of the preceding marketing year—

(i) is equal to, or exceeds by 10 per centum or less, the fair exchange value thereof¹ the rate of such tax shall (subject to the provisions of subdivision (A) of this paragraph) be adjusted, at the beginning of the next succeeding marketing year, to such rate as equals 20 per centum of the fair exchange value thereof.

(ii) exceeds by more than 10 per centum, but not more than 20 per centum, the fair exchange value thereof, the rate of such tax shall (subject to the provisions of subdivision (A) of this paragraph) be adjusted, at the beginning of the next succeeding marketing year, to such rate as equals 15 per centum of the fair exchange value thereof.

(iii) exceeds by more than 20 per centum the fair exchange value thereof, the rate of such tax shall (subject to the provisions of subdivision (A) of this paragraph) be adjusted, at the beginning of the next succeeding marketing year, to such rate as equals 10 per centum of the fair exchange value thereof.

(C) Any rate of tax which has been adjusted pursuant to this paragraph shall remain at such adjusted rate unless further adjusted or terminated pursuant to this paragraph, until December 31, 1937, or until July 31, 1936, in the case of rice.

(D) In accordance with the formulae, standards, and requirements prescribed in this chap-

¹ So in original. Probably should be followed by a comma.

ter, any rate of tax prescribed in paragraphs (2) to (4) or (5) of this subsection or which is established pursuant to this paragraph shall be increased.

(E) Any tax, the rate of which is prescribed in paragraphs (2) to (4), or (5) of this subsection or which is established pursuant to this paragraph, shall terminate pursuant to proclamation as provided in subsection (a) of this section or pursuant to section 613 of this title. Any such tax with respect to any basic commodity which terminates pursuant to proclamation as provided in subsection (a) of this section shall again become effective at the rate prescribed in paragraphs (2) to (4), or (5) of this subsection, subject however to the provisions of subdivisions (A) and (B) of this paragraph, from the beginning of the marketing year for such commodity next following the date of a new proclamation by the Secretary as provided in subsection (a) of this section, if such marketing year begins prior to December 31, 1937, or prior to July 31, 1936, in the case of rice, and shall remain at such rate until altered or terminated pursuant to this section or terminated pursuant to section 613 of this title.

(F) After December 31, 1937 (in the case of the commodities specified in paragraphs (2), (4), and (5) of this subsection), and after July 31, 1936 (in the case of rice), rates of tax shall be determined by the Secretary of Agriculture in accordance with the formulae, standards, and requirements prescribed in this chapter but not in this paragraph, and shall, subject to such formulae, standards, and requirements, thereafter be effective.

(G) If the applicability to any person or circumstances of any tax, the rate of which is fixed in pursuance of this paragraph, is finally held invalid by reason of any provision of the Constitution, or is finally held invalid by reason of the Secretary of Agriculture's exercise or failure to exercise any power conferred on him under this chapter, there shall be levied, assessed, collected, and paid (in lieu of all rates of tax fixed in pursuance of this paragraph with respect to all tax liabilities incurred under this chapter on or after the effective date of each of the rates of tax fixed in pursuance of this paragraph), rates of tax fixed under paragraphs (2) to (4), or (5) of this subsection, and such rates shall be in effect (unless the particular tax is terminated pursuant to proclamation, as provided in subsection (a) of this section or pursuant to section 613 of this title) until altered by Act of Congress; except that, for any period prior to the effective date of such holding of invalidity, the amount of tax which represents the difference between the tax at the rate fixed in pursuance of this paragraph (6) and the tax at the rate fixed under paragraphs (2) to (4), and (5) shall not be levied, assessed, collected or paid.

(7) In the case of rice, the weight to which the rate of tax shall be applied shall be the weight of rough rice when delivered to a processor, except that, where the producer processes his own rice, the weight to which the rate of tax shall be applied shall be the weight of rough rice when delivered to the place of processing.

(8) In the case of sugar beets or sugarcane the rate of tax shall be applied to the direct-con-

sumption sugar, resulting from the first domestic processing, translated into terms of pounds of raw value according to regulations to be issued by the Secretary of Agriculture, and in the event that the Secretary increases or decreases the rate of tax fixed by paragraph (2) of this subsection, pursuant to the provisions of paragraph (6) of this subsection, then the rate of tax to be so applied shall be the higher of the two following quotients: The difference between the current average farm price and the fair exchange value (A) of a ton of sugar beets and (B) of a ton of sugarcane, divided in the case of each commodity by the average extraction therefrom of sugar in terms of pounds of raw value (which average extraction shall be determined from available statistics of the Department of Agriculture); the rate of tax fixed by paragraph (2) of this subsection or adjusted pursuant to the provisions of paragraph (6) of this subsection shall in no event exceed the amount of the reduction by the President on a pound of sugar raw value of the rate of duty in effect on January 1, 1934, under paragraph 501 of section 1001² of title 19, as adjusted to the treaty of commercial reciprocity concluded between the United States and the Republic of Cuba on December 11, 1902, and/or the provisions of sections 124 and 125 of title 19.

(9) In computing the current average farm price in the case of wheat, premiums paid producers for protein content shall not be taken into account.

(c) For the purposes of this chapter, the fair exchange value of a commodity shall be the price therefor that will give the commodity the same purchasing power, with respect to articles farmers buy, as such commodity had during the base period specified in section 602 of this title; and, in the case of all commodities where the base period is the prewar period, August 1909 to July 1914, will also reflect interest payments per acre on farm indebtedness secured by real estate and tax payments per acre on farm real estate, as contrasted with such interest payments and tax payments during said base period; and the current average farm price and the fair exchange value shall be ascertained by the Secretary of Agriculture from available statistics of the Department of Agriculture. The rate of tax upon the processing of any commodity in effect on August 24, 1935, shall not be affected by the adoption of this amendment and shall not be required to be adjusted or altered, unless the Secretary of Agriculture finds that it is necessary to adjust or alter any such rate pursuant to subsection (a) of this section.
