

since the revised sections of this chapter make specific reference to the agencies named in this revised section. The words “United States” before the words “Coast Guard” are omitted, since they are not a part of the official name of the Coast Guard under section 1 of title 14.

In subsection (b), the introductory clause is substituted for the word “supplies”. Throughout the revised chapter reference is made to “property or services covered by this chapter”, instead of “supplies”, since the word “supplies” is defined in section 101(26) of this title in its usual and narrower sense, rather than the sense of the source statute for this revised chapter. It is desirable to avoid a usage which conflicts with the definition in section 101(26) of this title. The word “ships” and the words “of every character, type, and description”, after the word “vessels”, are omitted as covered by the definition of “vessel” in section 1 of title 1.

(A) shall obtain full and open competition through the use of competitive procedures in accordance with the requirements of this chapter and the Federal Acquisition Regulation; and

(B) shall use the competitive procedure or combination of competitive procedures that is best suited under the circumstances of the procurement.

(2) In determining the competitive procedure appropriate under the circumstances, the head of an agency—

(A) shall solicit sealed bids if—

(i) time permits the solicitation, submission, and evaluation of sealed bids;

(ii) the award will be made on the basis of price and other price-related factors;

(iii) it is not necessary to conduct discussions with the responding sources about their bids; and

(iv) there is a reasonable expectation of receiving more than one sealed bid; and

(B) shall request competitive proposals if sealed bids are not appropriate under clause (A).

(b)(1) The head of an agency may provide for the procurement of property or services covered by this chapter using competitive procedures but excluding a particular source in order to establish or maintain an alternative source or sources of supply for that property or service if the head of the agency determines that to do so—

(A) would increase or maintain competition and would likely result in reduced overall costs for such procurement, or for any anticipated procurement, of property or services;

(B) would be in the interest of national defense in having a facility (or a producer, manufacturer, or other supplier) available for furnishing the property or service in case of a national emergency or industrial mobilization;

(C) would be in the interest of national defense in establishing or maintaining an essential engineering, research, or development capability to be provided by an educational or other nonprofit institution or a federally funded research and development center;

(D) would ensure the continuous availability of a reliable source of supply of such property or service;
