§ 1701t. Congressional affirmation of national goal of decent homes and suitable living environment for American families

The Congress affirms the national goal, as set forth in section 1441 of title 42, of “a decent home and a suitable living environment for every American family”.

The Congress finds that this goal has not been fully realized for many of the Nation's lower income families; that this is a matter of grave national concern; and that there exist in the public and private sectors of the economy the resources and capabilities necessary to the full realization of this goal.

The Congress declares that in the administration of those housing programs authorized by this Act which are designed to assist families with incomes so low that they could not otherwise decently house themselves, and of other Government programs designed to assist in the provision of housing for such families, the highest priority and emphasis should be given to meeting the housing needs of those families for which the national goal has not become a reality; and in the carrying out of such programs there should be the fullest practicable utilization of the resources and capabilities of private enterprise and of individual self-help techniques.

§ 1701u. Economic opportunities for low- and very low-income persons

(a) Findings

The Congress finds that—

(1) Federal housing and community development programs provide State and local governments and other recipients of Federal financial assistance with substantial funds for projects and activities that produce significant employment and other economic opportunities;

(2) low- and very low-income persons, especially recipients of government assistance for housing, often have restricted access to employment and other economic opportunities;

(3) the employment and other economic opportunities generated by projects and activities that receive Federal housing and community development assistance offer an effective means of empowering low- and very low-income persons, particularly persons who are recipients of government assistance for housing; and

(4) prior Federal efforts to direct employment and other economic opportunities generated by Federal housing and community development programs to low- and very low-income persons have not been fully effective and should be intensified.

(b) Policy

It is the policy of the Congress and the purpose of this section to ensure that the employment and other economic opportunities generated by Federal financial assistance for housing and community development programs shall, to the greatest extent feasible, be directed toward low- and very low-income persons, particularly those who are recipients of government assistance for housing.

(c) Employment

(1) Public and Indian housing program

(A) In general

The Secretary shall require that public and Indian housing agencies, and their contractors and subcontractors, make their best efforts, consistent with existing Federal, State, and local laws and regulations, to give to low- and very low-income persons the training and employment opportunities generated by development assistance provided pursuant to section 1437c of title 42, operating assistance provided pursuant to section 1437g of title 42, and modernization grants provided pursuant to section 1437l of title 42.¹
