(1) In any case in which one or more banking institutions extend credit, whether by loan, lease, guarantee, or otherwise, which individually or in the aggregate exceeds \$20,000,000, to finance any project which has as a major objective the construction or operation of any mining operation, any metal or mineral primary processing operation, any fabricating facility or operation, or any metal-making operations (semi and finished) located outside the United States or its territories and possessions, a written economic feasibility evaluation of such foreign project shall be prepared and approved in writing by a senior official of the banking institution, or, if more than one banking institution is involved, the lead banking institution, prior to the extension of such credit.

(2) Such evaluation shall—

Such economic feasibility evaluations shall be reviewed by representatives of the appropriate Federal banking agencies whenever an examination by such appropriate Federal banking agency is conducted.
