(b) Coordination

The Secretary shall coordinate with the Corporation, the Board (with respect to any mortgage or mortgage-backed securities or pool of securities held, owned, or controlled by or on behalf of a Federal reserve bank, as provided in section 5220(a)(1)(C) of this title), the Federal Housing Finance Agency, the Secretary of Housing and Urban Development, and other Federal Government entities that hold troubled assets to attempt to identify opportunities for the acquisition of classes of troubled assets that will improve the ability of the Secretary to improve the loan modification and restructuring process and, where permissible, to permit bona fide tenants who are current on their rent to remain in their homes under the terms of the lease. In the case of a mortgage on a residential rental property, the plan required under this section shall include protecting Federal, State, and local rental subsidies and protections, and ensuring any modification takes into account the need for operating funds to maintain decent and safe conditions at the property.

(c) Consent to reasonable loan modification requests

Upon any request arising under existing investment contracts, the Secretary shall consent, where appropriate, and considering net present value to the taxpayer, to reasonable requests for loss mitigation measures, including term extensions, rate reductions, principal write downs, increases in the proportion of loans within a trust or other structure allowed to be modified, or removal of other limitation on modifications.

<div align="center">AMENDMENTS</div>

2009—Subsec. (a). Pub. L. 111–5 designated existing provisions as par. (1), inserted par. (1) heading, and added par. (2).

§ 5219a. Home Affordable Modification Program guidelines

(a) Net present value input data

The Secretary of the Treasury (in this section referred to as the ''Secretary'') shall revise the supplemental directives and other guidelines for the Home Affordable Modification Program of the Making Home Affordable initiative of the Secretary of the Treasury, authorized under the Emergency Economic Stabilization Act of 2008 (Public Law 110–343) [12 U.S.C. 5201 et seq.], to require each mortgage servicer participating in such program to provide each borrower under a mortgage whose request for a mortgage modification under the Program is denied with all borrower-related and mortgage-related input data used in any net present value (NPV) analyses performed in connection with the subject mortgage. Such input data shall be provided to the borrower at the time of such denial.

(b) Web-based site for NPV calculator and application

(1) NPV calculator

In carrying out the Home Affordable Modification Program, the Secretary shall establish and maintain a site on the World Wide Web that provides a calculator for net present value analyses of a mortgage, based on the Secretary's methodology for calculating such value, that mortgagors can use to enter information regarding their own mortgages and that provides a determination after entering such information regarding a mortgage of whether such mortgage would be accepted or rejected for modification under the Program, using such methodology.

(2) Disclosure

Such Web site shall also prominently disclose that each mortgage servicer participating in such Program may use a method for calculating net present value of a mortgage that is different than the method used by such calculator.

(3) Application

The Secretary shall make a reasonable effort to include on such World Wide Web site a method for homeowners to apply for a mortgage modification under the Home Affordable Modification Program.

(c) Public availability of NPV methodology, computer model, and variables

The Secretary shall make publicly available, including by posting on a World Wide Web site of the Secretary—

(1) the Secretary's methodology and computer model, including all formulae used in such computer model, used for calculating net present value of a mortgage that is used by the calculator established pursuant to subsection (b); and

(2) all non-proprietary variables used in such net present value analysis.
