- (1) Reducing counterfeit and infringing goods in the domestic and international supply chain.
- (2) Identifying and addressing structural weaknesses, systemic flaws, or other unjustified impediments to effective enforcement action against the financing, production, trafficking, or sale of counterfeit or infringing goods, including identifying duplicative efforts to enforce, investigate, and prosecute in-

Such recommendations may include recommendations on how to reduce duplication in personnel, materials, technologies, and facilities utilized by the agencies and Departments responsible for the enforcement, investigation, or prosecution of intellectual property crimes.

(3) Ensuring that information is identified and shared among the relevant departments and agencies, to the extent permitted by law, including requirements relating to confidentiality and privacy, and to the extent that such sharing of information is consistent with Department of Justice and other law enforcement protocols for handling such information, to aid in the objective of arresting and prosecuting individuals and entities that are knowingly involved in the financing, production, trafficking, or sale of counterfeit or infringing goods.

(4) Disrupting and eliminating domestic and international counterfeiting and infringement networks.

(5) Strengthening the capacity of other countries to protect and enforce intellectual property rights, and reducing the number of countries that fail to enforce laws preventing the financing, production, trafficking, and sale of counterfeit and infringing goods.

(6) Working with other countries to establish international standards and policies for the effective protection and enforcement of intellectual property rights.

(7) Protecting intellectual property rights overseas by—
