**§ 720I. Sense of Congress concerning natural gas demand**

It is the sense of Congress that—

- (1) North American demand for natural gas will increase dramatically over the course of the next several decades;
- (2) both the Alaska Natural Gas Pipeline and the Mackenzie Delta Natural Gas project in Canada will be necessary to help meet the increased demand for natural gas in North America;
- (3) Federal and State officials should work together with officials in Canada to ensure both projects can move forward in a mutually beneficial fashion;
- (4) Federal and State officials should acknowledge that the smaller scope, fewer permitting requirements, and lower cost of the Mackenzie Delta project means it will most

likely be completed before the Alaska Natural Gas Pipeline;

- (5) natural gas production in the 48 contiguous States and Canada will not be able to meet all domestic demand in the coming decades; and

- (6) as a result, natural gas delivered from Alaskan North Slope will not displace or reduce the commercial viability of Canadian natural gas produced from the Mackenzie Delta or production from the 48 contiguous States.

(Pub. L. 108–324, div. C, §114, Oct. 13, 2004, 118 Stat. 1264.)

**§ 720m. Sense of Congress concerning Alaskan ownership**

It is the sense of Congress that—

- (1) Alaska Native Regional Corporations, companies owned and operated by Alaskans, and individual Alaskans should have the opportunity to own shares of the Alaska natural gas pipeline in a way that promotes economic development for the State; and
- (2) to facilitate economic development in the State, all project sponsors should negotiate in good faith with any willing Alaskan person that desires to be involved in the project.

(Pub. L. 108–324, div. C, §115, Oct. 13, 2004, 118 Stat. 1265.)
