

AMENDMENTS

1935—Act Aug. 31, 1935, inserted last three provisos.

§ 831j. Equitable distribution of surplus power among States and municipalities; improvement in production of fertilizer

It is declared to be the policy of the Government so far as practical to distribute and sell the surplus power generated at Muscle Shoals equitably among the States, counties, and municipalities within transmission distance. This policy is further declared to be that the projects herein provided for shall be considered primarily as for the benefit of the people of the section as a whole and particularly the domestic and rural consumers to whom the power can economically be made available, and accordingly that sale to and use by industry shall be a secondary purpose, to be utilized principally to secure a sufficiently high load factor and revenue returns which will permit domestic and rural use at the lowest possible rates and in such manner as to encourage increased domestic and rural use of electricity. It is further declared to be the policy of the Government to utilize the Muscle Shoals properties so far as may be necessary to improve, increase, and cheapen the production of fertilizer and fertilizer ingredients by carrying out the provisions of this chapter.

(May 18, 1933, ch. 32, § 11, 48 Stat. 64.)

§ 831k. Transmission lines; construction or lease; sale of power over other than Government lines; rates when sold for resale at profit

In order to place the Board upon a fair basis for making such contracts and for receiving bids for the sale of such power, it is expressly authorized, either from appropriations made by Congress or from funds secured from the sale of such power, or from funds, secured by the sale of bonds hereafter provided for, to construct, lease, purchase, or authorize the construction of transmission lines within transmission distance from the place where generated, and to interconnect with other systems. The Board is also authorized to lease to any person, persons, or corporation the use of any transmission line owned by the Government and operated by the Board, but no such lease shall be made that in any way interferes with the use of such transmission line by the Board: *Provided*, That if any State, county, municipality, or other public or cooperative organization of citizens or farmers, not organized or doing business for profit, but primarily for the purpose of supplying electricity to its own citizens or members, or any two or more of such municipalities or organizations, shall construct or agree to construct and maintain a properly designed and built transmission line to the Government reservation upon which is located a Government generating plant, or to a main transmission line owned by the Government or leased by the Board and under the control of the Board, the Board is authorized and directed to contract with such State, county, municipality, or other organization, or two or more of them, for the sale of electricity for a term not exceeding thirty years; and in any such case the Board shall give to such State, county, municipality, or other organization ample time to fully

comply with any local law now in existence or hereafter enacted providing for the necessary legal authority for such State, county, municipality, or other organization to contract with the Board for such power: *Provided further*, That all contracts entered into between the Corporation and any municipality or other political subdivision or cooperative organization shall provide that the electric power shall be sold and distributed to the ultimate consumer without discrimination as between consumers of the same class, and such contract shall be voidable at the election of the Board if a discriminatory rate, rebate, or other special concession is made or given to any consumer or user by the municipality or other political subdivision or cooperative organization: *And provided further*, That as to any surplus power not so sold as above provided to States, counties, municipalities, or other said organizations, before the Board shall sell the same to any person or corporation engaged in the distribution and resale of electricity for profit, it shall require said person or corporation to agree that any resale of such electric power by said person or corporation shall be made to the ultimate consumer of such electric power at prices that shall not exceed a schedule fixed by the Board from time to time as reasonable, just, and fair; and in case of any such sale, if an amount is charged the ultimate consumer which is in excess of the price so deemed to be just, reasonable, and fair by the Board, the contract for such sale between the Board and such distributor of electricity shall be voidable at the election of the Board: *And provided further*, That the Board is authorized to enter into contracts with other power systems for the mutual exchange of unused excess power upon suitable terms, for the conservation of stored water, and as an emergency or breakdown relief.

(May 18, 1933, ch. 32, § 12, 48 Stat. 65; Pub. L. 108-447, div. C, title VI, § 603(a)(2), Dec. 8, 2004, 118 Stat. 2966.)

AMENDMENTS

2004—Pub. L. 108-447 substituted “Board” for “board” wherever appearing.

EFFECTIVE DATE OF 2004 AMENDMENT

Amendment by Pub. L. 108-447 effective on the later of the date on which at least three persons nominated under section 604(a) of Pub. L. 108-447 take office or May 18, 2005, see section 604(b) of Pub. L. 108-447, set out in an Appointments; Effective Date; Transition note under section 831a of this title.

§ 831k-1. Extension of credit to States, municipalities and nonprofit organizations to assist in operation of existing facilities

In order (1) to facilitate the disposition of the surplus power of the Corporation according to the policies set forth in this chapter; (2) to give effect to the priority herein accorded to States, counties, municipalities, and nonprofit organizations in the purchase of such power by enabling them to acquire facilities for the distribution of such power; and (3) at the same time to preserve existing distribution facilities as going concerns and avoid duplication of such facilities, the Board is authorized to advise and cooperate
