

which is classified principally to this chapter. For complete classification of this Act to the Code, see Short Title note set out under section 1531 of this title and Tables.

AMENDMENTS

2000—Pub. L. 106-201, in introductory provisions, substituted “Notwithstanding section 3003 of Public Law 104-66 (31 U.S.C. 1113 note; 109 Stat. 734), on” for “On”.

EFFECTIVE DATE OF 2000 AMENDMENT

Pub. L. 106-201, §1(b), May 18, 2000, 114 Stat. 307, provided that: “The amendment made by this section [amending this section] takes effect on the earlier of—“(1) the date of enactment of this Act [May 18, 2000]; or“(2) December 19, 1999.”

CHAPTER 36—FOREST AND RANGELAND RENEWABLE RESOURCES PLANNING

SUBCHAPTER I—PLANNING

- Sec. 1600. Congressional findings.
- 1601. Renewable Resource Assessment.
- 1602. Renewable Resource Program; preparation by Secretary of Agriculture and transmittal to President; purpose and development of program; time of preparation, updating and contents.
- 1603. National Forest System resource inventories; development, maintenance, and updating by Secretary of Agriculture as part of Assessment.
- 1604. National Forest System land and resource management plans.
- 1605. Protection, use and management of renewable resources on non-Federal lands; utilization of Assessment, surveys and Program by Secretary of Agriculture to assist States, etc.
- 1606. Budget requests by President for Forest Service activities.
- 1606a. Reforestation Trust Fund.
- 1607. National Forest System renewable resources; development and administration by Secretary of Agriculture in accordance with multiple use and sustained yield concepts for products and services; target year for operational posture of resources; budget requests.
- 1608. National Forest Transportation System.
- 1609. National Forest System.
- 1610. Implementation of provisions by Secretary of Agriculture; utilization of information and data of other organizations; avoidance of duplication of planning, etc.; “renewable resources” defined.
- 1611. Timber.
- 1612. Public participation.
- 1613. Promulgation of regulations.
- 1614. Severability.

SUBCHAPTER II—RESEARCH

- 1641. Findings and purpose.
- 1642. Investigations, experiments, tests, and other activities.
- 1643. Implementation of provisions.
- 1644. Forestry and rangeland competitive research grants.
- 1645. General provisions.
- 1646. Authorization of appropriations.
- 1647. Other Federal programs.
- 1648. Recycling research.
- 1649. Forestry Student Grant Program.
- 1649a. Repealed.
- 1650. Hardwood technology transfer and applied research.

SUBCHAPTER III—EXTENSION PROGRAMS

- 1671. Congressional statement of findings.

- Sec. 1672. General program authorization.
- 1673. State programs.
- 1674. Renewable Resources Extension Program plan.
- 1674a. Expanded programs.
- 1674b. Sustainable Forestry Outreach Initiative.
- 1675. Authorization of appropriations; criteria for eligibility of States for funds.
- 1676. Issuance of rules and regulations for implementation of provisions and coordination with agricultural, research, extension, and teaching provisions.

SUBCHAPTER IV—WOOD RESIDUE UTILIZATION

- 1681. Congressional statement of purpose.
- 1682. Pilot projects and demonstrations.
- 1683. Pilot projects; requirements; residue removal credits as compensation; implementation guidelines.
- 1684. Annual reports.
- 1685. Regulations.
- 1686. Definitions.
- 1687. Authorization of appropriations.

SUBCHAPTER I—PLANNING

§ 1600. Congressional findings

The Congress finds that—

(1) the management of the Nation’s renewable resources is highly complex and the uses, demand for, and supply of the various resources are subject to change over time;

(2) the public interest is served by the Forest Service, Department of Agriculture, in cooperation with other agencies, assessing the Nation’s renewable resources, and developing and preparing a national renewable resource program, which is periodically reviewed and updated;

(3) to serve the national interest, the renewable resource program must be based on a comprehensive assessment of present and anticipated uses, demand for, and supply of renewable resources from the Nation’s public and private forests and rangelands, through analysis of environmental and economic impacts, coordination of multiple use and sustained yield opportunities as provided in the Multiple-Use Sustained-Yield Act of 1960 (74 Stat. 215; 16 U.S.C. 528-531), and public participation in the development of the program;

(4) the new knowledge derived from coordinated public and private research programs will promote a sound technical and ecological base for effective management, use, and protection of the Nation’s renewable resources;

(5) inasmuch as the majority of the Nation’s forests and rangeland is under private, State, and local governmental management and the Nation’s major capacity to produce goods and services is based on these nonfederally managed renewable resources, the Federal Government should be a catalyst to encourage and assist these owners in the efficient long-term use and improvement of these lands and their renewable resources consistent with the principles of sustained yield and multiple use;

(6) the Forest Service, by virtue of its statutory authority for management of the National Forest System, research and cooperative programs, and its role as an agency in the Department of Agriculture, has both a responsibility and an opportunity to be a leader in
