

“(b) SUBSECTION (a) REPEALED.—

“(1) The Secretary of the Interior shall certify before October 1, 1999, if a bill or resolution has been passed by the Alaska State Legislature to amend the Constitution of the State of Alaska that, if approved by the electorate, would enable the implementation of state laws of general applicability consistent with, and which provide for the definition, preference, and participation specified in sections 803, 804, and 805 of the Alaska National Interest Lands Conservation Act [16 U.S.C. 3113, 3114, 3115].

“(2) Subsection (a) shall be repealed on October 1, 1999, unless prior to that date the Secretary of the Interior makes such a certification described in paragraph (1). [A certification was not made prior to Oct. 1, 1999.]

“(c) TECHNICAL AMENDMENTS TO THE ALASKA NATIONAL INTEREST LANDS CONSERVATION ACT.—[Amended section 3115 of this title.]

“(d) EFFECT ON TIDAL AND SUBMERGED LAND.—Nothing in this section invalidates, validates, or in any other way affects any claim of the State of Alaska to title to any tidal or submerged land in Alaska.”

Pub. L. 105-83, title III, §316(a), Nov. 14, 1997, 111 Stat. 1592, provided that: “None of the funds made available to the Department of the Interior or the Department of Agriculture by this or any other Act hereafter enacted may be used prior to December 1, 1998 to issue or implement final regulations, rules, or policies pursuant to title VIII of the Alaska National Interest Lands Conservation Act [16 U.S.C. 3111 et seq.] to assert jurisdiction, management, or control over the navigable waters transferred to the State of Alaska pursuant to the Submerged Lands Act of 1953 [43 U.S.C. 1301 et seq.] or the Alaska Statehood Act of 1959 [Pub. L. 85-508, set out as a note preceding section 21 of Title 48, Territories and Insular Possessions].”

### § 3103. Maps

#### (a) Filing and availability for inspection; discrepancies; coastal areas

The boundary maps described in this Act shall be on file and available for public inspection in the office of the Secretary or the Secretary of Agriculture with regard to the National Forest System. In the event of discrepancies between the acreages specified in this Act and those depicted on such maps, the maps shall be controlling, but the boundaries of areas added to the National Park, Wildlife Refuge and National Forest Systems shall, in coastal areas not extend seaward beyond the mean high tide line to include lands owned by the State of Alaska unless the State shall have concurred in such boundary extension and such extension is accomplished under the notice and reporting requirements of this Act.

#### (b) Changes in land management status; publication in Federal Register; filing; clerical errors; boundary features and adjustments

As soon as practicable after December 2, 1980, a map and legal description of each change in land management status effected by this Act, including the National Wilderness Preservation System, shall be published in the Federal Register and filed with the Speaker of the House of Representatives and the President of the Senate, and each such description shall have the same force and effect as if included in this Act: *Provided, however,* That correction of clerical and typographical errors in each such legal description and map may be made. Each such map and legal description shall be on file and available for public inspection in the office of the

Secretary. Whenever possible boundaries shall follow hydrographic divides or embrace other topographic or natural features. Following reasonable notice in writing to the Congress of his intention to do so the Secretary and the Secretary of Agriculture may make minor adjustments in the boundaries of the areas added to or established by this Act as units of National Park, Wildlife Refuge, Wild and Scenic Rivers, National Wilderness Preservation, and National Forest Systems and as national conservation areas and national recreation areas. For the purposes of this subsection, a minor boundary adjustment shall not increase or decrease the amount of land within any such area by more than 23,000 acres.

#### (c) Lands included within unit; acquisition of land by Secretary

Only those lands within the boundaries of any conservation system unit which are public lands (as such term is defined in this Act) shall be deemed to be included as a portion of such unit. No lands which, before, on, or after December 2, 1980, are conveyed to the State, to any Native Corporation, or to any private party shall be subject to the regulations applicable solely to public lands within such units. If the State, a Native Corporation, or other owner desires to convey any such lands, the Secretary may acquire such lands in accordance with applicable law (including this Act), and any such lands shall become part of the unit, and be administered accordingly.

(Pub. L. 96-487, title I, §103, Dec. 2, 1980, 94 Stat. 2376.)

#### REFERENCES IN TEXT

This Act, referred to in text, is Pub. L. 96-487, Dec. 2, 1980, 94 Stat. 2371, known as the Alaska National Interest Lands Conservation Act. For complete classification of this Act to the Code, see Short Title note set out under section 3101 of this title and Tables.

### SUBCHAPTER II—SUBSISTENCE MANAGEMENT AND USE

#### § 3111. Congressional declaration of findings

The Congress finds and declares that—

(1) the continuation of the opportunity for subsistence uses by rural residents of Alaska, including both Natives and non-Natives, on the public lands and by Alaska Natives on Native lands is essential to Native physical, economic, traditional, and cultural existence and to non-Native physical, economic, traditional, and social existence;

(2) the situation in Alaska is unique in that, in most cases, no practical alternative means are available to replace the food supplies and other items gathered from fish and wildlife which supply rural residents dependent on subsistence uses;

(3) continuation of the opportunity for subsistence uses of resources on public and other lands in Alaska is threatened by the increasing population of Alaska, with resultant pressure on subsistence resources, by sudden decline in the populations of some wildlife species which are crucial subsistence resources, by increased accessibility of remote areas con-
