(3) any other provision of law enacted on or after November 16, 1990, that specifically authorizes the modification, revision, or correction.

(b) System maps

The Secretary shall keep the maps referred to in subsection (a) of this section on file and available for public inspection in the Office of the Director of the United States Fish and Wildlife Service, and in such other offices of that service as the Director considers appropriate.

At least once every 5 years, the Secretary shall review the maps referred to in subsection (a) of this section and shall make, in consultation with the appropriate State, local, and Federal officials, such minor and technical modifications to the boundaries of System units as are necessary solely to reflect changes that have occurred in the size or location of any System unit as a result of natural forces.

(d) Additions to System

The Secretary may add a parcel of real property to the System, if—

(1) the owner of the parcel requests, in writing, that the Secretary add the parcel to the System; and

(2) the parcel is an undeveloped coastal barrier.

(e) Addition of excess Federal property

(1) Consultation and determination

Prior to transfer or disposal of excess property under chapters 1 to 11 of title 40 and division C (except sections 3302, 3307(e), 3501(b), 3509, 3906, 4710, and 4711) of subtitle I of title 41 that may be an undeveloped coastal barrier, the Administrator of General Services shall consult with and obtain from the Secretary a determination as to whether and what portion of the property constitutes an undeveloped coastal barrier. Not later than 180 days after the initiation of such consultation, the Secretary shall make and publish notice of such determination. Immediately upon issuance of a positive determination, the Secretary shall—

(A) prepare a map depicting the undeveloped coastal barrier portion of such property; and

(B) publish in the Federal Register notice of the addition of such property to the System.

(C) the Federal Emergency Management Agency; and

(3) revise the maps referred to in subsection (a) of this section to reflect each boundary modification under subsection (c) of this section and each addition of real property to the System under subsection (d) or (e) of this section, after publishing in the Federal Register a notice of any such proposed revision.

(g) Guidelines for certain recommendations and determinations

(1) In general

In making any recommendation to the Congress regarding the addition of any area to the System or in determining whether, at the time of the inclusion of a System unit within the System, a coastal barrier is undeveloped, the Secretary shall consider whether within the area—

(A) the density of development is less than 1 structure per 5 acres of land above mean high tide; and

(B) there is existing infrastructure consisting of—

(i) a road, with a reinforced road bed, to each lot or building site in the area;

(ii) a wastewater disposal system sufficient to serve each lot or building site in the area;

(iii) electric service for each lot or building site in the area; and

(iv) a fresh water supply for each lot or building site in the area.
