

fair market value of each property included therein, shall be determined as of the day preceding the first day of the first taxable year which begins after December 31, 1963.

“(2) ALLOCATION OF ADJUSTMENTS, ETC.—If the taxpayer makes an election under this paragraph with respect to any section 614(b) aggregation, then the adjusted basis (as of the first day of the first taxable year beginning December 31, 1963) of each property included in such aggregation shall be the adjusted basis of such property at the time it was first included in the aggregation by the taxpayer, adjusted for that portion of those adjustments to the basis of the aggregation which are reasonably attributable to such property. If, under the preceding sentence, the total of the adjusted bases of the interests included in the aggregation exceeds the adjusted basis of the aggregation (as of the day preceding the first day of the first taxable year which begins after December 31, 1963), the adjusted bases of the properties which include such interests shall be adjusted, under regulations prescribed by the Secretary of the Treasury or his delegate, so that the total of the adjusted bases of such interests equals the adjusted basis of the aggregation. An election under this paragraph shall be made at such time and in such manner as the Secretary of the Treasury or his delegate shall by regulations prescribe.

§ 616. Development expenditures

(a) In general

Except as provided in subsections (b) and (d), there shall be allowed as a deduction in computing taxable income all expenditures paid or incurred during the taxable year for the development of a mine or other natural deposit (other than an oil or gas well) if paid or incurred after the existence of ores or minerals in commercially marketable quantities has been disclosed. This section shall not apply to expenditures for the acquisition or improvement of property of a character which is subject to the allowance for depreciation provided in section 167, but allowances for depreciation shall be considered, for purposes of this section, as expenditures.

(b) Election of taxpayer

At the election of the taxpayer, made in accordance with regulations prescribed by the Sec-

retary, expenditures described in subsection (a) paid or incurred during the taxable year shall be treated as deferred expenses and shall be deductible on a ratable basis as the units of produced ores or minerals benefited by such expenditures are sold. In the case of such expenditures paid or incurred during the development stage of the mine or deposit, the election shall apply only with respect to the excess of such expenditures during the taxable year over the net receipts during the taxable year from the ores or minerals produced from such mine or deposit. The election under this subsection, if made, must be for the total amount of such expenditures, or the total amount of such excess, as the case may be, with respect to the mine or deposit, and shall be binding for such taxable year.

(c) Adjusted basis of mine or deposit

The amount of expenditures which are treated under subsection (b) as deferred expenses shall be taken into account in computing the adjusted basis of the mine or deposit, except that such amount, and the adjustments to basis provided in section 1016(a)(9), shall be disregarded in determining the adjusted basis of the property for the purpose of computing a deduction for depletion under section 611.

(d) Special rules for foreign development

In the case of any expenditures paid or incurred with respect to the development of a mine or other natural deposit (other than an oil, gas, or geothermal well) located outside of the United States—

(1) subsections (a) and (b) shall not apply, and

(2) such expenditures shall—

(A) at the election of the taxpayer, be included in adjusted basis for purposes of computing the amount of any deduction allowable under section 611 (without regard to section 613), or

(B) if subparagraph (A) does not apply, be allowed as a deduction ratably over the 10-taxable year period beginning with the taxable year in which such expenditures were paid or incurred.

(e) Cross reference

§ 617. Deduction and recapture of certain mining exploration expenditures

(a) Allowance of deduction

(1) General rule

At the election of the taxpayer, expenditures paid or incurred during the taxable year for the purpose of ascertaining the existence, location, extent, or quality of any deposit of ore or other mineral, and paid or incurred before the beginning of the development stage of the mine, shall be allowed as a deduction in computing taxable income. This subsection shall apply only with respect to the amount of such expenditures which, but for this subsection, would not be allowable as a deduction for the taxable year. This subsection shall not apply to expenditures for the acquisition or improvement of property of a character which is subject to the allowance for depreciation provided in section 167, but allowances for depreciation shall be considered, for purposes of this subsection, as expenditures paid or incurred. In no case shall this subsection apply with respect to amounts paid or incurred for the purpose of ascertaining the existence, location, extent, or quality of any deposit of oil or gas or of any mineral with respect to which a deduction for percentage depletion is not allowable under section 613.

(2) Elections

(A) Method

Any election under this subsection shall be made in such manner as the Secretary may by regulations prescribe.

(B) Time and scope

The election provided by paragraph (1) for the taxable year may be made at any time before the expiration of the period prescribed for making a claim for credit or refund of the tax imposed by this chapter for the taxable year. Such an election for the taxable year shall apply to all expenditures described in paragraph (1) paid or incurred by the taxpayer during the taxable year or during any subsequent taxable year. Such an election may not be revoked unless the Secretary consents to such revocation.

(C) Deficiencies

The statutory period for the assessment of any deficiency for any taxable year, to the

extent such deficiency is attributable to an election or revocation of an election under this subsection, shall not expire before the last day of the 2-year period beginning on the day after the date on which such election or revocation of election is made; and such deficiency may be assessed at any time before the expiration of such 2-year period, notwithstanding any law or rule of law which would otherwise prevent such assessment.

(b) Recapture on reaching producing stage

(1) Recapture

If, in any taxable year, any mine with respect to which expenditures were deducted pursuant to subsection (a) reaches the producing stage, then—

(A) If the taxpayer so elects with respect to all such mines reaching the producing stage during the taxable year, he shall include in gross income for the taxable year an amount equal to the adjusted exploration expenditures with respect to such mines, and the amount so included in income shall be treated for purposes of this subtitle as expenditures which (i) are paid or incurred on the respective dates on which the mines reach the producing stage, and (ii) are properly chargeable to capital account.

(B) If subparagraph (A) does not apply with respect to any such mine, then the deduction for depletion under section 611 with respect to the property shall be disallowed until the amount of depletion which would be allowable but for this subparagraph equals the amount of the adjusted exploration expenditures with respect to such mine.

(2) Elections

(A) Method

Any election under this subsection shall be made in such manner as the Secretary may by regulations prescribe.

(B) Time and scope

The election provided by paragraph (1) for any taxable year may be made or changed not later than the time prescribed by law for filing the return (including extensions thereof) for such taxable year.

(c) Recapture in case of bonus or royalty

If an election has been made under subsection (a) with respect to expenditures relating to a mining property and the taxpayer receives or accrues a bonus or a royalty with respect to such property, then the deduction for depletion under section 611 with respect to the bonus or royalty shall be disallowed until the amount of depletion which would be allowable but for this subsection equals the amount of the adjusted exploration expenditures with respect to the property to which the bonus or royalty relates.

(d) Gain from dispositions of certain mining property

(1) General rule

Except as otherwise provided in this subsection, if mining property is disposed of the lower of—

(A) the adjusted exploration expenditures with respect to such property, or
