§ 2242. Remote and subsistence harbors

(a) In general

(2) the harbor is economically critical such that over 80 percent of the goods transported through the harbor would be consumed within the region served by the harbor and navigation improvement, as determined by the Secretary, including consideration of information provided by the non-Federal interest; and

(3) the long-term viability of the community would be threatened without the harbor and navigation improvement.

(b) Justification

In considering whether to recommend a project under subsection (a), the Secretary shall consider the benefits of the project to—

(1) public health and safety of the local community, including access to facilities designed to protect public health and safety;

(2) access to natural resources for subsistence purposes;

(3) local and regional economic opportunities;

(4) welfare of the local population; and

(5) social and cultural value to the community.

Projects recommended by the Secretary under subsection (a) shall be given equivalent budget

consideration and priority as projects recommended solely by national economic development benefits.
