§ 114. Multiyear procurement

(a) The Secretary may enter into a multiyear contract for the procurement of supplies or services if the Secretary makes each of the following determinations:

(1) Appropriations are available for obligations that are necessary for total payments that would be required during the fiscal year in which the contract is entered into, plus the estimated amount of any cancellation charge payable under the contract.

(2) The contract is in the best interest of the United States by reason of the effect that use of a multiyear, rather than one-year, contract would have in—

(A) reducing costs;

(B) achieving economies in contract administration or in any other Department activities;

(C) increasing quality of performance by or service from the contractors; or

(D) encouraging effective competition.

(3) During the proposed contract period—

(A) there will be a continuing or recurring need for the supplies or services being procured;

(B) there is not a substantial likelihood of substantial changes in the need for such supplies or services in terms of the total quantity of such supplies or services or of the rate of delivery of such supplies or services; and

(C) the specifications for the supplies or services are expected to be reasonably stable.

(4) The risks relating to the prospective contractor's ability to perform in accordance with the specifications and other terms of the contract are not excessive.

(5) The use of a multiyear contract will not inhibit small business concerns in competing for the contract.

(6) In the case of the procurement of a pharmaceutical item for which a patent has expired less than four years before the date on which the solicitation of offers is issued, there is no substantial likelihood that increased competition among potential contractors would occur during the term of the contract as the result of the availability of generic equivalents increasing during the term of the contract.

(b)(1) A multiyear contract authorized by this section shall contain—

(A) a provision that the obligation of the United States under the contract during any fiscal year which is included in the contract period and is subsequent to the fiscal year during which the contract is entered into is contingent on the availability of sufficient appropriations (as determined by the Secretary pursuant to paragraph (2)(A) of this subsection) if, at the time the contract is entered into, appropriations are not available to cover the total estimated payments that will be required during the full term of the contract; and

(B) notwithstanding section 1502(a) of title 31, a provision for the payment of reasonable
