

seq.), the Advisory Committee shall perform the following duties:

(A) Advise the Secretary on developing guidelines and procedures for providing assistance for facilities under subsection (g)(1).

(B) Review and critique the draft implementation plan prepared by the Secretary under subsection (c).

(C) Identify useful studies of data archived under the Program that will advance understanding of the Nation's energy and mineral resources, geologic hazards, and engineering geology.

(D) Review the progress of the Program in archiving significant data and preventing the loss of such data, and the scientific progress of the studies funded under the Program.

(E) Include in the annual report to the Secretary required under section 5(b)(3)¹ of the National Geologic Mapping Act of 1992 (43 U.S.C. 31d(b)(3)) an evaluation of the progress of the Program toward fulfilling the purposes of the Program under subsection (b).

(g) Financial assistance

(1) Archive facilities

Subject to the availability of appropriations, the Secretary shall provide financial assistance to a State agency that is designated under subsection (d)(2) for providing facilities to archive energy material.

(2) Studies

Subject to the availability of appropriations, the Secretary shall provide financial assistance to any State agency designated under subsection (d)(2) for studies and technical assistance activities that enhance understanding, interpretation, and use of materials archived in the data archive system established under subsection (d).

(3) Federal share

The Federal share of the cost of an activity carried out with assistance under this subsection shall be not more than 50 percent of the total cost of the activity.

(4) Private contributions

The Secretary shall apply to the non-Federal share of the cost of an activity carried out with assistance under this subsection the value of private contributions of property and services used for that activity.

(h) Report

The Secretary shall include in each report under section 8 of the National Geologic Mapping Act of 1992 (43 U.S.C. 31g)—

(1) a description of the status of the Program;

(2) an evaluation of the progress achieved in developing the Program during the period covered by the report; and

(3) any recommendations for legislative or other action the Secretary considers necessary and appropriate to fulfill the purposes of the Program under subsection (b).

(i) Maintenance of State effort

It is the intent of Congress that the States not use this section as an opportunity to reduce State resources applied to the activities that are the subject of the Program.

(j) Definitions

In this section:

(1) Advisory Committee

The term “Advisory Committee” means the advisory committee established under section 5 of the National Geologic Mapping Act of 1992 (43 U.S.C. 31d).

(2) Program

The term “Program” means the National Geological and Geophysical Data Preservation Program carried out under this section.

(3) Secretary

The term “Secretary” means the Secretary of the Interior, acting through the Director of the United States Geological Survey.

(4) Survey

The term “Survey” means the United States Geological Survey.

(k) Authorization of appropriations

There are authorized to be appropriated to carry out this section \$30,000,000 for each of fiscal years 2006 through 2010.

(Pub. L. 109-58, title III, §351, Aug. 8, 2005, 119 Stat. 711.)

REFERENCES IN TEXT

The National Geologic Mapping Act of 1992, referred to in subsec. (f)(2), is Pub. L. 102-285, May 18, 1992, 106 Stat. 166, which is classified principally to sections 31a to 31h of Title 43, Public Lands. Par. (3) of section 5(b) of the Act was redesignated par. (4) by Pub. L. 111-11, title XI, §11001(f)(2)(B), Mar. 30, 2009, 123 Stat. 1415, and is now classified to section 31d(b)(4) of Title 43. For complete classification of this Act to the Code, see Short Title note set out under section 31a of Title 43 and Tables.

§ 15909. Gas hydrate production incentive

(a) Purpose

The purpose of this section is to promote natural gas production from the natural gas hydrate resources on the outer Continental Shelf and Federal lands in Alaska by providing royalty incentives.

(b) Suspension of royalties

(1) In general

The Secretary may grant royalty relief in accordance with this section for natural gas produced from gas hydrate resources under an eligible lease.

(2) Eligible leases

A lease shall be an eligible lease for purposes of this section if—

(A) it is issued under the Outer Continental Shelf Lands Act (43 U.S.C. 1331 et seq.), or is an oil and gas lease issued for onshore Federal lands in Alaska;

(B) it is issued prior to January 1, 2016; and

(C) production under the lease of natural gas from gas hydrate resources commences prior to January 1, 2018.

¹ See References in Text note below.

(3) Amount of relief

The Secretary shall conduct a rulemaking and grant royalty relief under this section as a suspension volume if the Secretary determines that such royalty relief would encourage production of natural gas from gas hydrate resources from an eligible lease. The maximum suspension volume shall be 30 billion cubic feet of natural gas per lease. Such relief shall be in addition to any other royalty relief under any other provision applicable to the lease that does not specifically grant a gas hydrate production incentive. Such royalty suspension volume shall be applied to any eligible production occurring on or after the date of publication of the advanced notice of proposed rulemaking.

(4) Limitation

The Secretary may place limitations on royalty relief granted under this section based on market price.

(c) Application

This section shall apply to any eligible lease issued before, on, or after August 8, 2005.

(d) Rulemakings**(1) Requirement**

The Secretary shall publish the advanced notice of proposed rulemaking within 180 days after August 8, 2005, and complete the rulemaking implementing this section within 365 days after August 8, 2005.

(2) Gas hydrate resources defined

Such regulations shall define the term “gas hydrate resources” to include both the natural gas content of gas hydrates within the hydrate stability zone and free natural gas trapped by and beneath the hydrate stability zone.

(e) Review

Not later than 365 days after August 8, 2005, the Secretary, in consultation with the Secretary of Energy, shall carry out a review of, and submit to Congress a report on, further opportunities to enhance production of natural gas from gas hydrate resources on the outer Continental Shelf and on Federal lands in Alaska through the provision of other production incentives or through technical or financial assistance.

(Pub. L. 109–58, title III, §353, Aug. 8, 2005, 119 Stat. 714.)

REFERENCES IN TEXT

The Outer Continental Shelf Lands Act, referred to in subsec. (b)(2)(A), is act Aug. 7, 1953, ch. 345, 67 Stat. 462, as amended, which is classified generally to subchapter III (§1331 et seq.) of chapter 29 of Title 43, Public Lands. For complete classification of this Act to the Code, see Short Title note set out under section 1301 of Title 43 and Tables.

§ 15910. Enhanced oil and natural gas production through carbon dioxide injection**(a) Production incentive****(1) Findings**

Congress finds the following:

(A) Approximately two-thirds of the original oil in place in the United States remains unproduced.

(B) Enhanced oil and natural gas production from the sequestering of carbon dioxide and other appropriate gases has the potential to increase oil and natural gas production.

(C) Capturing and productively using carbon dioxide would help reduce the carbon intensity of the economy.

(2) Purpose

The purpose of this section is—

(A) to promote the capturing, transportation, and injection of produced carbon dioxide, natural carbon dioxide, and other appropriate gases or other matter for sequestration into oil and gas fields; and

(B) to promote oil and natural gas production from the outer Continental Shelf and onshore Federal lands under lease by providing royalty incentives to use enhanced recovery techniques using injection of the substances referred to in subparagraph (A).

(b) Suspension of royalties**(1) In general**

If the Secretary determines that reduction of the royalty under a Federal oil and gas lease that is an eligible lease is in the public interest and promotes the purposes of this section, the Secretary shall undertake a rulemaking to provide for such reduction for an eligible lease.

(2) Rulemakings

The Secretary shall publish the advanced notice of proposed rulemaking within 180 days after August 8, 2005, and complete the rulemaking implementing this section within 365 days after August 8, 2005.

(3) Eligible leases

A lease shall be an eligible lease for purposes of this section if—

(A) it is a lease for production of oil and gas from the outer Continental Shelf or Federal onshore lands;

(B) the injection of the substances referred to in subsection (a)(2)(A) will be used as an enhanced recovery technique on such lease; and

(C) the Secretary determines that the lease contains oil or gas that would not likely be produced without the royalty reduction provided under this section.

(4) Amount of relief

The rulemaking shall provide for a suspension volume, which shall not exceed 5,000,000 barrels of oil equivalent for each eligible lease. Such suspension volume shall be applied to any production from an eligible lease occurring on or after the date of publication of any advanced notice of proposed rulemaking under this subsection.

(5) Limitation

The Secretary may place limitations on the royalty reduction granted under this section based on market price.

(6) Application

This section shall apply to any eligible lease issued before, on, or after August 8, 2005.
