

of Michigan and affected local officials, shall conduct a demonstration project to address the effect of transported ozone and ozone precursors in Southwestern Michigan. The demonstration program shall address projected nonattainment areas in Southwestern Michigan that include counties with design values for ozone of less than .095 based on years 2000 to 2002 or the most current 3-year period of air quality data. The Administrator shall assess any difficulties such areas may experience in meeting the 8-hour national ambient air quality standard for ozone due to the effect of transported ozone or ozone precursors into the areas. The Administrator shall work with State and local officials to determine the extent of ozone and ozone precursor transport, to assess alternatives to achieve compliance with the 8-hour standard apart from local controls, and to determine the timeframe in which such compliance could take place. The Administrator shall complete this demonstration project no later than 2 years after August 8, 2005, and shall not impose any requirement or sanction under the Clean Air Act (42 U.S.C. 7401 et seq.) that might otherwise apply during the pendency of the demonstration project.

(Pub. L. 109-58, title IX, §996, Aug. 8, 2005, 119 Stat. 915.)

#### REFERENCES IN TEXT

The Clean Air Act, referred to in text, is act July 14, 1955, ch. 360, 69 Stat. 322, as amended, which is classified generally to chapter 85 (§7401 et seq.) of this title. For complete classification of this Act to the Code, see Short Title note set out under section 7401 of this title and Tables.

### § 16361. Arctic Engineering Research Center

#### (a) In general

The Secretary of Transportation, in consultation with the Secretary and the United States Arctic Research Commission, shall provide annual grants to a university located adjacent to the Arctic Energy Office of the Department of Energy, to establish and operate a university research center to be headquartered in Fairbanks and to be known as the "Arctic Engineering Research Center" (referred to in this section as the "Center").

#### (b) Purpose

The purpose of the Center shall be to conduct research on, and develop improved methods of, construction and use of materials to improve the overall performance of roads, bridges, residential, commercial, and industrial structures, and other infrastructure in the Arctic region, with an emphasis on developing—

(1) new construction techniques for roads, bridges, rail, and related transportation infrastructure and residential, commercial, and industrial infrastructure that are capable of withstanding the Arctic environment and using limited energy resources as efficiently as practicable;

(2) technologies and procedures for increasing road, bridge, rail, and related transportation infrastructure and residential, commercial, and industrial infrastructure safety, reliability, and integrity in the Arctic region;

(3) new materials and improving the performance and energy efficiency of existing ma-

terials for the construction of roads, bridges, rail, and related transportation infrastructure and residential, commercial, and industrial infrastructure in the Arctic region; and

(4) recommendations for new local, regional, and State permitting and building codes to ensure transportation and building safety and efficient energy use when constructing, using, and occupying such infrastructure in the Arctic region.

#### (c) Objectives

The Center shall carry out—

(1) basic and applied research in the subjects described in subsection (b), the products of which shall be judged by peers or other experts in the field to advance the body of knowledge in road, bridge, rail, and infrastructure engineering in the Arctic region; and

(2) an ongoing program of technology transfer that makes research results available to potential users in a form that can be implemented.

#### (d) Amount of grant

For each of fiscal years 2006 through 2011, the Secretary shall provide a grant in the amount of \$3,000,000 to the institution specified in subsection (a) to carry out this section.

#### (e) Authorization of appropriations

There are authorized to be appropriated to carry out this section \$3,000,000 for each of fiscal years 2006 through 2011.

(Pub. L. 109-58, title IX, §997, Aug. 8, 2005, 119 Stat. 915.)

### § 16362. Barrow Geophysical Research Facility

#### (a) Establishment

The Secretary of Commerce, in consultation with the Secretaries of Energy and the Interior, the Director of the National Science Foundation, and the Administrator of the Environmental Protection Agency, shall establish a joint research facility in Barrow, Alaska, to be known as the "Barrow Geophysical Research Facility", to support scientific research activities in the Arctic.

#### (b) Authorization of appropriations

There are authorized to be appropriated to the Secretaries of Commerce, Energy, and the Interior, the Director of the National Science Foundation, and the Administrator of the Environmental Protection Agency for the planning, design, construction, and support of the Barrow Geophysical Research Facility, \$61,000,000.

(Pub. L. 109-58, title IX, §998, Aug. 8, 2005, 119 Stat. 916.)

#### PART J—ULTRA-DEEPWATER AND UNCONVENTIONAL NATURAL GAS AND OTHER PETROLEUM RESOURCES

### §§ 16371 to 16378. Repealed. Pub. L. 113-67, div. A, title III, §301(a), Dec. 26, 2013, 127 Stat. 1181

Section 16371, Pub. L. 109-58, title IX, §999A, Aug. 8, 2005, 119 Stat. 916, authorized the Secretary of Energy to carry out a program under this part of research, development, demonstration, and commercial application

of technologies for ultra-deepwater and unconventional natural gas and other petroleum resources.

Section 16372, Pub. L. 109-58, title IX, §999B, Aug. 8, 2005, 119 Stat. 917, related to administration of the program under this part.

Section 16373, Pub. L. 109-58, title IX, §999C, Aug. 8, 2005, 119 Stat. 921, related to additional requirements for awards under this part.

Section 16374, Pub. L. 109-58, title IX, §999D, Aug. 8, 2005, 119 Stat. 922, related to the Ultra-Deepwater Advisory Committee and Unconventional Resources Technology Advisory Committee.

Section 16375, Pub. L. 109-58, title IX, §999E, Aug. 8, 2005, 119 Stat. 923, related to limitations on eligibility for awards under this part.

Section 16376, Pub. L. 109-58, title IX, §999F, Aug. 8, 2005, 119 Stat. 923, terminated the authority provided by this part on Sept. 30, 2014.

Section 16377, Pub. L. 109-58, title IX, §999G, Aug. 8, 2005, 119 Stat. 923, defined terms for this part.

Section 16378, Pub. L. 109-58, title IX, §999H, Aug. 8, 2005, 119 Stat. 924; Pub. L. 113-287, §5(k)(6), Dec. 19, 2014, 128 Stat. 3270, related to the Ultra-Deepwater and Unconventional Natural Gas and Other Petroleum Research Fund.

EX. ORD. NO. 13605. SUPPORTING SAFE AND RESPONSIBLE DEVELOPMENT OF UNCONVENTIONAL DOMESTIC NATURAL GAS RESOURCES

Ex. Ord. No. 13605, Apr. 13, 2012, 77 F.R. 23107, provided:

By the authority vested in me as President by the Constitution and the laws of the United States of America, and in order to coordinate the efforts of Federal agencies responsible for overseeing the safe and responsible development of unconventional domestic natural gas resources and associated infrastructure and to help reduce our dependence on oil, it is hereby ordered as follows:

**SECTION 1. Policy.** In 2011, natural gas provided 25 percent of the energy consumed in the United States. Its production creates jobs and provides economic benefits to the entire domestic production supply chain, as well as to chemical and other manufacturers, who benefit from lower feedstock and energy costs. By helping to power our transportation system, greater use of natural gas can also reduce our dependence on oil. And with appropriate safeguards, natural gas can provide a cleaner source of energy than other fossil fuels.

For these reasons, it is vital that we take full advantage of our natural gas resources, while giving American families and communities confidence that natural and cultural resources, air and water quality, and public health and safety will not be compromised.

While natural gas production is carried out by private firms, and States are the primary regulators of on-shore oil and gas activities, the Federal Government has an important role to play by regulating oil and gas activities on public and Indian trust lands, encouraging greater use of natural gas in transportation, supporting research and development aimed at improving the safety of natural gas development and transportation activities, and setting sensible, cost-effective public health and environmental standards to implement Federal law and augment State safeguards.

Because efforts to promote safe, responsible, and efficient development of unconventional domestic natural gas resources are underway at a number of executive departments and agencies (agencies), close interagency coordination is important for effective implementation of these programs and activities. To formalize and promote ongoing interagency coordination, this order establishes a high-level, interagency working group that will facilitate coordinated Administration policy efforts to support safe and responsible unconventional domestic natural gas development.

**SEC. 2. Interagency Working Group to Support Safe and Responsible Development of Unconventional Domestic Natural Gas Resources.** There is established an Interagency Working Group to Support Safe and Responsible Development

of Unconventional Domestic Natural Gas Resources (Working Group), to be chaired by the Director of the Domestic Policy Council, or a designated representative.

(a) *Membership.* In addition to the Chair, the Working Group shall include deputy-level representatives or equivalent officials, designated by the head of the respective agency or office, from:

- (i) the Department of Defense;
- (ii) the Department of the Interior;
- (iii) the Department of Agriculture;
- (iv) the Department of Commerce;
- (v) the Department of Health and Human Services;
- (vi) the Department of Transportation;
- (vii) the Department of Energy;
- (viii) the Department of Homeland Security;
- (ix) the Environmental Protection Agency;
- (x) the Council on Environmental Quality;
- (xi) the Office of Science and Technology Policy;
- (xii) the Office of Management and Budget;
- (xiii) the National Economic Council; and
- (xiv) such other agencies or offices as the Chair may invite to participate.

(b) *Functions.* Consistent with the authorities and responsibilities of participating agencies and offices, the Working Group shall support the safe and responsible production of domestic unconventional natural gas by performing the following functions:

- (i) coordinate agency policy activities, ensuring their efficient and effective operation and facilitating cooperation among agencies, as appropriate;
- (ii) coordinate among agencies the sharing of scientific, environmental, and related technical and economic information;
- (iii) engage in long-term planning and ensure coordination among the appropriate Federal entities with respect to such issues as research, natural resource assessment, and the development of infrastructure;
- (iv) promote interagency communication with stakeholders; and
- (v) consult with other agencies and offices as appropriate.

**SEC. 3. General Provisions.** (a) This order shall be implemented consistent with applicable law and subject to the availability of appropriations.

(b) Nothing in this order shall be construed to impair or otherwise affect:

- (i) the authority granted by law to an executive department, agency, or the head thereof; or
- (ii) the functions of the Director of the Office of Management and Budget relating to budgetary, administrative, or legislative proposals.

(c) This order is not intended to, and does not, create any right or benefit, substantive or procedural, enforceable at law or in equity by any party against the United States, its departments, agencies, or entities, its officers, employees, or agents, or any other person.

BARACK OBAMA.

SUBCHAPTER X—DEPARTMENT OF ENERGY MANAGEMENT

**§ 16391. Improved technology transfer of energy technologies**

**(a) Technology Transfer Coordinator**

The Secretary shall appoint a Technology Transfer Coordinator to be the principal advisor to the Secretary on all matters relating to technology transfer and commercialization.

**(b) Qualifications**

The Coordinator shall be an individual who, by reason of professional background and experience, is specially qualified to advise the Secretary on matters pertaining to technology transfer at the Department.

**(c) Duties of the Coordinator**

The Coordinator shall oversee—
