

which is different from that which was so installed pursuant to this section shall be required for such unit by the Administrator when issuing the first permit under section 6925 of this title to such facility, except that the Administrator shall not be precluded from requiring installation of a new liner when the Administrator has reason to believe that any liner installed pursuant to the requirements of this section is leaking. The Administrator may, under section 6924 of this title, amend the requirements for liners and leachate collection systems required under this section as may be necessary to provide additional protection for human health and the environment.

(Pub. L. 89-272, title II, §3015, as added Pub. L. 98-616, title II, §243(a), Nov. 8, 1984, 98 Stat. 3260.)

**§ 6937. Inventory of Federal agency hazardous waste facilities**

**(a) Program requirement; submission; availability; contents**

Each Federal agency shall undertake a continuing program to compile, publish, and submit to the Administrator (and to the State in the case of sites in States having an authorized hazardous waste program) an inventory of each site which the Federal agency owns or operates or has owned or operated at which hazardous waste is stored, treated, or disposed of or has been disposed of at any time. The inventory shall be submitted every two years beginning January 31, 1986. Such inventory shall be available to the public as provided in section 6927(b) of this title. Information previously submitted by a Federal agency under section 9603 of this title, or under section 6925 or 6930 of this title, or under this section need not be resubmitted except that the agency shall update any previous submission to reflect the latest available data and information. The inventory shall include each of the following:

(1) A description of the location of each site at which any such treatment, storage, or disposal has taken place before the date on which permits are required under section 6925 of this title for such storage, treatment, or disposal, and where hazardous waste has been disposed, a description of hydrogeology of the site and the location of withdrawal wells and surface water within one mile of the site.

(2) Such information relating to the amount, nature, and toxicity of the hazardous waste in each site as may be necessary to determine the extent of any health hazard which may be associated with any site.

(3) Information on the known nature and extent of environmental contamination at each site, including a description of the monitoring data obtained.

(4) Information concerning the current status of the site, including information respecting whether or not hazardous waste is currently being treated, stored, or disposed of at such site (and if not, the date on which such activity ceased) and information respecting the nature of any other activity currently carried out at such site.

(5) A list of sites at which hazardous waste has been disposed and environmental monitor-

ing data has not been obtained, and the reasons for the lack of monitoring data at each site.

(6) A description of response actions undertaken or contemplated at contaminated sites.

(7) An identification of the types of techniques of waste treatment, storage, or disposal which have been used at each site.

(8) The name and address and responsible Federal agency for each site, determined as of the date of preparation of the inventory.

**(b) Environmental Protection Agency program**

If the Administrator determines that any Federal agency under subsection (a) of this section is not adequately providing information respecting the sites referred to in subsection (a) of this section, the Administrator shall notify the chief official of such agency. If within ninety days following such notification, the Federal agency has not undertaken a program to adequately provide such information, the Administrator shall carry out the inventory program for such agency.

(Pub. L. 89-272, title II, §3016, as added Pub. L. 98-616, title II, §244, Nov. 8, 1984, 98 Stat. 3261.)

**§ 6938. Export of hazardous wastes**

**(a) In general**

Beginning twenty-four months after November 8, 1984, no person shall export any hazardous waste identified or listed under this subchapter unless<sup>1</sup>

(1)(A) such person has provided the notification required in subsection (c) of this section,

(B) the government of the receiving country has consented to accept such hazardous waste,

(C) a copy of the receiving country's written consent is attached to the manifest accompanying each waste shipment, and

(D) the shipment conforms with the terms of the consent of the government of the receiving country required pursuant to subsection (e) of this section, or

(2) the United States and the government of the receiving country have entered into an agreement as provided for in subsection (f) of this section and the shipment conforms with the terms of such agreement.

**(b) Regulations**

Not later than twelve months after November 8, 1984, the Administrator shall promulgate the regulations necessary to implement this section. Such regulations shall become effective one hundred and eighty days after promulgation.

**(c) Notification**

Any person who intends to export a hazardous waste identified or listed under this subchapter beginning twelve months after November 8, 1984, shall, before such hazardous waste is scheduled to leave the United States, provide notification to the Administrator. Such notification shall contain the following information:

(1) the name and address of the exporter;

(2) the types and estimated quantities of hazardous waste to be exported;

(3) the estimated frequency or rate at which such waste is to be exported; and the period of time over which such waste is to be exported;

<sup>1</sup> So in original. Probably should be followed by a dash.

- (4) the ports of entry;
- (5) a description of the manner in which such hazardous waste will be transported to and treated, stored, or disposed in the receiving country; and
- (6) the name and address of the ultimate treatment, storage or disposal facility.

**(d) Procedures for requesting consent of receiving country**

Within thirty days of the Administrator's receipt of a complete notification under this section, the Secretary of State, acting on behalf of the Administrator, shall—

- (1) forward a copy of the notification to the government of the receiving country;
- (2) advise the government that United States law prohibits the export of hazardous waste unless the receiving country consents to accept the hazardous waste;
- (3) request the government to provide the Secretary with a written consent or objection to the terms of the notification; and
- (4) forward to the government of the receiving country a description of the Federal regulations which would apply to the treatment, storage, and disposal of the hazardous waste in the United States.

**(e) Conveyance of written consent to exporter**

Within thirty days of receipt by the Secretary of State of the receiving country's written consent or objection (or any subsequent communication withdrawing a prior consent or objection), the Administrator shall forward such a consent, objection, or other communication to the exporter.

**(f) International agreements**

Where there exists an international agreement between the United States and the government of the receiving country establishing notice, export, and enforcement procedures for the transportation, treatment, storage, and disposal of hazardous wastes, only the requirements of subsections (a)(2) and (g) of this section shall apply.

**(g) Reports**

After November 8, 1984, any person who exports any hazardous waste identified or listed under section 6921 of this title shall file with the Administrator no later than March 1 of each year, a report summarizing the types, quantities, frequency, and ultimate destination of all such hazardous waste exported during the previous calendar year.

**(h) Other standards**

Nothing in this section shall preclude the Administrator from establishing other standards for the export of hazardous wastes under section 6922 of this title or section 6923 of this title.

(Pub. L. 89-272, title II, § 3017, as added Pub. L. 98-616, title II, § 245(a), Nov. 8, 1984, 98 Stat. 3262.)

**§ 6939. Domestic sewage**

**(a) Report**

The Administrator shall, not later than 15 months after November 8, 1984, submit a report to the Congress concerning those substances identified or listed under section 6921 of this title which are not regulated under this sub-

chapter by reason of the exclusion for mixtures of domestic sewage and other wastes that pass through a sewer system to a publicly owned treatment works. Such report shall include the types, size and number of generators which dispose of such substances in this manner, the types and quantities disposed of in this manner, and the identification of significant generators, wastes, and waste constituents not regulated under existing Federal law or regulated in a manner sufficient to protect human health and the environment.

**(b) Revisions of regulations**

Within eighteen months after submitting the report specified in subsection (a) of this section, the Administrator shall revise existing regulations and promulgate such additional regulations pursuant to this subchapter (or any other authority of the Administrator, including section 1317 of title 33) as are necessary to assure that substances identified or listed under section 6921 of this title which pass through a sewer system to a publicly owned treatment works are adequately controlled to protect human health and the environment.

**(c) Report on wastewater lagoons**

The Administrator shall, within thirty-six months after November 8, 1984, submit a report to Congress concerning wastewater lagoons at publicly owned treatment works and their effect on groundwater quality. Such report shall include—

- (1) the number and size of such lagoons;
- (2) the types and quantities of waste contained in such lagoons;
- (3) the extent to which such waste has been or may be released from such lagoons and contaminate ground water; and
- (4) available alternatives for preventing or controlling such releases.

The Administrator may utilize the authority of sections 6927 and 6934 of this title for the purpose of completing such report.

**(d) Application of sections 6927 and 6930**

The provisions of sections 6927 and 6930 of this title shall apply to solid or dissolved materials in domestic sewage to the same extent and in the same manner as such provisions apply to hazardous waste.

(Pub. L. 89-272, title II, § 3018, as added Pub. L. 98-616, title II, § 246(a), Nov. 8, 1984, 98 Stat. 3264.)

**§ 6939a. Exposure information and health assessments**

**(a) Exposure information**

Beginning on the date nine months after November 8, 1984, each application for a final determination regarding a permit under section 6925(c) of this title for a landfill or surface impoundment shall be accompanied by information reasonably ascertainable by the owner or operator on the potential for the public to be exposed to hazardous wastes or hazardous constituents through releases related to the unit. At a minimum, such information must address:

- (1) reasonably foreseeable potential releases from both normal operations and accidents at
