

exceed \$98,000,000 for the period beginning October 1, 1978, and ending September 30, 1981.

(Pub. L. 95-619, title V, § 569, Nov. 9, 1978, 92 Stat. 3282.)

PART D—PEAK DEMAND REDUCTION

§ 8279. National Action Plan for Demand Response

(a) National Assessment and report

The Federal Energy Regulatory Commission (“Commission”) shall conduct a National Assessment of Demand Response. The Commission shall, within 18 months of December 19, 2007, submit a report to Congress that includes each of the following:

(1) Estimation of nationwide demand response potential in 5 and 10 year horizons, including data on a State-by-State basis, and a methodology for updates of such estimates on an annual basis.

(2) Estimation of how much of this potential can be achieved within 5 and 10 years after December 19, 2007, accompanied by specific policy recommendations that if implemented can achieve the estimated potential. Such recommendations shall include options for funding and/or incentives for the development of demand response resources.

(3) The Commission shall further note any barriers to demand response programs offering flexible, non-discriminatory, and fairly compensatory terms for the services and benefits made available, and shall provide recommendations for overcoming such barriers.

(4) The Commission shall seek to take advantage of preexisting research and ongoing work, and shall insure that there is no duplication of effort.

(b) National Action Plan on Demand Response

The Commission shall further develop a National Action Plan on Demand Response, soliciting and accepting input and participation from a broad range of industry stakeholders, State regulatory utility commissioners, and non-governmental groups. The Commission shall seek consensus where possible, and decide on optimum solutions to issues that defy consensus. Such Plan shall be completed within 1 year after the completion of the National Assessment of Demand Response, and shall meet each of the following objectives:

(1) Identification of requirements for technical assistance to States to allow them to maximize the amount of demand response resources that can be developed and deployed.

(2) Design and identification of requirements for implementation of a national communications program that includes broad-based customer education and support.

(3) Development or identification of analytical tools, information, model regulatory provisions, model contracts, and other support materials for use by customers, States, utilities and demand response providers.

(c) Implementation of Plan

Upon completion, the National Action Plan on Demand Response shall be published, together with any favorable and dissenting comments

submitted by participants in its preparation. Six months after publication, the Commission, together with the Secretary of Energy, shall submit to Congress a proposal to implement the Action Plan, including specific proposed assignments of responsibility, proposed budget amounts, and any agreements secured for participation from State and other participants.

(d) Authorization

There are authorized to be appropriated to the Commission to carry out this section not more than \$10,000,000 for each of the fiscal years 2008, 2009, and 2010.

(Pub. L. 95-619, title V, § 571, as added Pub. L. 110-140, title V, § 529(a), Dec. 19, 2007, 121 Stat. 1664.)

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110-140, set out as a note under section 1824 of Title 2, The Congress.

SUBCHAPTER IV—ENERGY CONSERVATION FOR COMMERCIAL BUILDINGS AND MULTIFAMILY DWELLINGS

PART A—GENERAL PROVISIONS

§§ 8281 to 8281b. Repealed. Pub. L. 99-412, title II, § 201(a), Aug. 28, 1986, 100 Stat. 943

Section 8281, Pub. L. 95-619, title VII, § 710, as added Pub. L. 96-294, title V, § 565, June 30, 1980, 94 Stat. 752, provided that definitions in section 8211 of this title apply to this subchapter and defined additional terms.

Section 8281a, Pub. L. 95-619, title VII, § 711, as added Pub. L. 96-294, title V, § 565, June 30, 1980, 94 Stat. 754, provided that this subchapter apply to any public utility for which coverage is provided under section 8212 of this title.

Section 8281b, Pub. L. 95-619, title VII, § 712, as added Pub. L. 96-294, title V, § 565, June 30, 1980, 94 Stat. 754, related to rules of the Secretary for submission and approval of plans.

DEMONSTRATION PROJECTS FOR ENERGY EFFICIENCY IN COMMERCIAL BUILDINGS

Pub. L. 99-412, title II, § 202, Aug. 28, 1986, 100 Stat. 943, provided that: “The Secretary of Energy shall, using funds appropriated for energy conservation activities of the Department of Energy, carry out demonstration projects by sharing the cost of the construction and development by nongovernmental entities of facilities which demonstrate innovative technologies for utility applications that increase energy efficiency in commercial buildings.”

PART B—ENERGY CONSERVATION PLANS

§§ 8282 to 8282b. Repealed. Pub. L. 99-412, title II, § 201(a), Aug. 28, 1986, 100 Stat. 943

Section 8282, Pub. L. 95-619, title VII, § 721, as added Pub. L. 96-294, title V, § 565, June 30, 1980, 94 Stat. 754, related to procedures for submission and approval of State energy conservation plans for commercial buildings and multifamily dwellings.

Section 8282a, Pub. L. 95-619, title VII, § 722, as added Pub. L. 96-294, title V, § 565, June 30, 1980, 94 Stat. 755, related to requirements for State plans for regulated utilities.

Section 8282b, Pub. L. 95-619, title VII, § 723, as added Pub. L. 96-294, title V, § 565, June 30, 1980, 94 Stat. 756, related to plan requirements for nonregulated utilities and building heating suppliers.
