SUBCHAPTER II—DROUGHT CONTINGENCY PLANNING

§ 2221. Identification of opportunities for water supply conservation, augmentation and use

The Secretary is authorized to conduct studies to identify opportunities to conserve, augment, and make more efficient use of water supplies available to Federal Reclamation projects and Indian water resource developments in order to be prepared for and better respond to drought conditions. The Secretary is authorized to provide technical assistance to States and to local and tribal government entities to assist in the

development, construction, and operation of water desalinization projects, including technical assistance for purposes of assessing the technical and economic feasibility of such projects.

(Pub. L. 102-250, title II, §201, Mar. 5, 1992, 106 Stat. 56.)

§ 2222. Drought contingency plans

The Secretary, acting pursuant to the Federal Reclamation laws, utilizing the resources of the Department of the Interior, and in consultation with other appropriate Federal and State officials, Indian tribes, public, private, and local entities, is authorized to prepare or participate in the preparation of cooperative drought contingency plans (hereinafter in this subchapter referred to as “contingency plans”) for the prevention or mitigation of adverse effects of drought conditions.

(Pub. L. 102-250, title II, §202, Mar. 5, 1992, 106 Stat. 56.)

§ 2223. Plan elements

(a) Plan provisions

Elements of the contingency plans prepared pursuant to section 2222 of this title may include, but are not limited to, any or all of the following:

- (1) Water banks.
- (2) Appropriate water conservation actions.
- (3) Water transfers to serve users inside or outside authorized Federal Reclamation project service areas in order to mitigate the effects of drought.
- (4) Use of Federal Reclamation project facilities to store and convey nonproject water for agricultural, municipal and industrial, fish and wildlife, or other uses both inside and outside an authorized Federal Reclamation project service area.
- (5) Use of water from dead or inactive reservoir storage or increased use of ground water resources for temporary water supplies.
- (6) Water supplies for fish and wildlife resources.
- (7) Minor structural actions.

(b) Federal Reclamation projects

Each contingency plan shall identify the following two types of plan elements related to Federal Reclamation projects:

(1) Those plan elements which pertain exclusively to the responsibilities and obligations of the Secretary pursuant to Federal Reclamation law and the responsibilities and obligations of the Secretary for a specific Federal Reclamation project.

(2) Those plan elements that pertain to projects, purposes, or activities not constructed, financed, or otherwise governed by the Federal Reclamation law.

(c) Drought levels

The Secretary is authorized to work with other Federal and State agencies to improve hydrologic data collection systems and water supply forecasting techniques to provide more accurate and timely warning of potential drought conditions and drought levels that would trigger the implementation of contingency plans.
