

served thereby, it could waive the requirement of a permit for construction of a station that was engaged solely in rebroadcasting television signals if such station had been constructed on or before July 7, 1960.

1962—Subsec. (a). Pub. L. 87-444 struck out requirement that applications were to be signed under oath or affirmation.

1960—Subsec. (c). Pub. L. 86-752 inserted references to section 309(d)–(g).

Subsec. (d). Pub. L. 86-609 authorized the Commission to waive the requirement of a permit for construction of a station engaged solely in rebroadcasting television signals if such station was constructed on or before July 7, 1960.

1954—Subsec. (b). Act Mar. 26, 1954, struck out sentence providing that a construction permit should not be required for Government stations, amateur stations, or stations upon mobile vessels, railroad rolling stock, or aircraft, such provisions being covered by subsec. (d) of this section.

Subsec. (d). Act Mar. 26, 1954, added subsec. (d).

1952—Subsec. (a). Act July 16, 1952, § 13(a), (b), struck out “upon written application therefor” after “by the Commission” in first sentence, struck out second sentence, and substituted in third sentence, “The application for a construction permit shall set forth” for “This application shall set forth”.

Subsec. (b). Act July 16, 1952, § 13(c), (d), struck out second sentence relating to assignment of rights under a permit, and struck out last two sentences, which are incorporated in subsec. (c).

Subsec. (c). Act July 16, 1952, § 13(d), added subsec. (c).

EFFECTIVE DATE OF 1960 AMENDMENT

Amendment by Pub. L. 86-752 effective ninety days after Sept. 13, 1960, see section 4(d)(1) of Pub. L. 86-752, set out as a note under section 309 of this title.

§ 320. Stations liable to interfere with distress signals; designation and regulation

The Commission is authorized to designate from time to time radio stations the communications or signals of which, in its opinion, are liable to interfere with the transmission or reception of distress signals of ships. Such stations are required to keep a licensed radio operator listening in on the frequencies designated for signals of distress and radio communications relating thereto during the entire period the transmitter of such station is in operation.

(June 19, 1934, ch. 652, title III, § 320, 48 Stat. 1090.)

§ 321. Distress signals and communications; equipment on vessels; regulations

(a) The transmitting set in a radio station on shipboard may be adjusted in such a manner as to produce a maximum of radiation, irrespective of the amount of interference which may thus be caused, when such station is sending radio communications or signals of distress and radio communications relating thereto.

(b) All radio stations, including Government stations and stations on board foreign vessels when within the territorial waters of the United States, shall give absolute priority to radio communications or signals relating to ships in distress; shall cease all sending on frequencies which will interfere with hearing a radio communication or signal of distress, and, except when engaged in answering or aiding the ship in distress, shall refrain from sending any radio communications or signals until there is assurance that no interference will be caused with

the radio communications or signals relating thereto, and shall assist the vessel in distress, so far as possible, by complying with its instructions.

(June 19, 1934, ch. 652, title III, § 321, 48 Stat. 1090; May 20, 1937, ch. 229, § 7, 50 Stat. 191.)

AMENDMENTS

1937—Subsec. (a). Act May 20, 1937, struck out provisions which required radio stations on shipboard to be equipped to transmit radio communications or signals of distress on the frequency specified by the Commission, with apparatus capable of transmitting and receiving messages over a distance of at least 100 miles by day or night.

§ 322. Exchanging radio communications between land and ship stations and from ship to ship

Every land station open to general public service between the coast and vessels or aircraft at sea shall, within the scope of its normal operations, be bound to exchange radio communications or signals with any ship or aircraft station at sea; and each station on shipboard or aircraft at sea shall, within the scope of its normal operations, be bound to exchange radio communications or signals with any other station on shipboard or aircraft at sea or with any land station open to general public service between the coast and vessels or aircraft at sea: *Provided*, That such exchange of radio communication shall be without distinction as to radio systems or instruments adopted by each station.

(June 19, 1934, ch. 652, title III, § 322, 48 Stat. 1090; May 20, 1937, ch. 229, § 8, 50 Stat. 191.)

AMENDMENTS

1937—Act May 20, 1937, provided for radio communications with aircraft stations.

§ 323. Interference between Government and commercial stations

(a) At all places where Government and private or commercial radio stations on land operate in such close proximity that interference with the work of Government stations cannot be avoided when they are operating simultaneously, such private or commercial stations as do interfere with the transmission or reception of radio communications or signals by the Government stations concerned shall not use their transmitters during the first fifteen minutes of each hour, local standard time.

(b) The Government stations for which the above-mentioned division of time is established shall transmit radio communications or signals only during the first fifteen minutes of each hour, local standard time, except in case of signals or radio communications relating to vessels in distress and vessel requests for information as to course, location, or compass direction.

(June 19, 1934, ch. 652, title III, § 323, 48 Stat. 1090.)

§ 324. Use of minimum power

In all circumstances, except in case of radio communications or signals relating to vessels in distress, all radio stations, including those owned and operated by the United States, shall
