

Subsec. (d). Pub. L. 112-96, §6602(2), struck out “(after consultation with the Commission and the Secretary of the Treasury)” after “Chairman of the Board ” in introductory provisions, redesignated pars. (2) to (4) as (1) to (3), respectively, and struck out former par. (1) which read as follows: “interest transferred pursuant to section 309(j)(8)(C) of this title;”.

Subsec. (g). Pub. L. 112-96, §6602(3), substituted “subsection (d)(1)” for “subsection (d)(2)”.

2004—Subsec. (f). Pub. L. 108-494 reenacted heading without change and amended text generally. Prior to amendment, text read as follows: “Loans or other extensions of credit from the Fund shall be made available in accordance with the requirements of the Federal Credit Reform Act of 1990 (2 U.S.C. 661 et seq.) and any other applicable law to an eligible small business on the basis of—

“(1) the analysis of the business plan of the eligible small business;

“(2) the reasonable availability of collateral to secure the loan or credit extension;

“(3) the extent to which the loan or credit extension promotes the purposes of this section; and

“(4) other lending policies as defined by the Board.”

§ 615. Support for universal emergency telephone number

The Federal Communications Commission shall encourage and support efforts by States to deploy comprehensive end-to-end emergency communications infrastructure and programs, based on coordinated statewide plans, including seamless, ubiquitous, reliable wireless telecommunications networks and enhanced wireless 9-1-1 service. In encouraging and supporting that deployment, the Commission shall consult and cooperate with State and local officials responsible for emergency services and public safety, the telecommunications industry (specifically including the cellular and other wireless telecommunications service providers), the motor vehicle manufacturing industry, emergency medical service providers and emergency dispatch providers, transportation officials, special 9-1-1 districts, public safety, fire service and law enforcement officials, consumer groups, and hospital emergency and trauma care personnel (including emergency physicians, trauma surgeons, and nurses). The Commission shall encourage each State to develop and implement coordinated statewide deployment plans, through an entity designated by the governor, and to include representatives of the foregoing organizations and entities in development and implementation of such plans. Nothing in this section shall be construed to authorize or require the Commission to impose obligations or costs on any person.

(Pub. L. 106-81, §3(b), Oct. 26, 1999, 113 Stat. 1287.)

CODIFICATION

Section was enacted as part of the Wireless Communications and Public Safety Act of 1999, and not as part of the Communications Act of 1934 which comprises this chapter.

FINDINGS AND PURPOSE

Pub. L. 106-81, §2, Oct. 26, 1999, 113 Stat. 1286, provided that:

“(a) FINDINGS.—The Congress finds that—

“(1) the establishment and maintenance of an end-to-end communications infrastructure among members of the public, emergency safety, fire service and law enforcement officials, emergency dispatch pro-

viders, transportation officials, and hospital emergency and trauma care facilities will reduce response times for the delivery of emergency care, assist in delivering appropriate care, and thereby prevent fatalities, substantially reduce the severity and extent of injuries, reduce time lost from work, and save thousands of lives and billions of dollars in health care costs;

“(2) the rapid, efficient deployment of emergency telecommunications service requires statewide coordination of the efforts of local public safety, fire service and law enforcement officials, emergency dispatch providers, and transportation officials; the establishment of sources of adequate funding for carrier and public safety, fire service and law enforcement agency technology development and deployment; the coordination and integration of emergency communications with traffic control and management systems and the designation of 9-1-1 as the number to call in emergencies throughout the Nation;

“(3) emerging technologies can be a critical component of the end-to-end communications infrastructure connecting the public with emergency medical service providers and emergency dispatch providers, public safety, fire service and law enforcement officials, and hospital emergency and trauma care facilities, to reduce emergency response times and provide appropriate care;

“(4) improved public safety remains an important public health objective of Federal, State, and local governments and substantially facilitates interstate and foreign commerce;

“(5) emergency care systems, particularly in rural areas of the Nation, will improve with the enabling of prompt notification of emergency services when motor vehicle crashes occur; and

“(6) the construction and operation of seamless, ubiquitous, and reliable wireless telecommunications systems promote public safety and provide immediate and critical communications links among members of the public; emergency medical service providers and emergency dispatch providers; public safety, fire service and law enforcement officials; transportation officials, and hospital emergency and trauma care facilities.

“(b) PURPOSE.—The purpose of this Act [see Short Title of 1999 Amendments note set out under section 609 of this title] is to encourage and facilitate the prompt deployment throughout the United States of a seamless, ubiquitous, and reliable end-to-end infrastructure for communications, including wireless communications, to meet the Nation’s public safety and other communications needs.”

§ 615a. Service provider parity of protection

(a) Provider parity

A wireless carrier, IP-enabled voice service provider, or other emergency communications provider, and their officers, directors, employees, vendors, and agents, shall have immunity or other protection from liability in a State of a scope and extent that is not less than the scope and extent of immunity or other protection from liability that any local exchange company, and its officers, directors, employees, vendors, or agents, have under Federal and State law (whether through statute, judicial decision, tariffs filed by such local exchange company, or otherwise) applicable in such State, including in connection with an act or omission involving the release to a PSAP, emergency medical service provider or emergency dispatch provider, public safety, fire service or law enforcement official, or hospital emergency or trauma care facility of subscriber information related to emergency calls, emergency services, or other emergency communications services.
