

AMENDMENTS

1996—Subsec. (f). Pub. L. 104-287 substituted “January 1, 1996” for “the effective date of the ICC Termination Act of 1995”.

EFFECTIVE DATE

Chapter effective Jan. 1, 1996, except as otherwise provided in Pub. L. 104-88, see section 2 of Pub. L. 104-88, set out as a note under section 701 of this title.

§ 11102. Use of terminal facilities

(a) The Board may require terminal facilities, including main-line tracks for a reasonable distance outside of a terminal, owned by a rail carrier providing transportation subject to the jurisdiction of the Board under this part, to be used by another rail carrier if the Board finds that use to be practicable and in the public interest without substantially impairing the ability of the rail carrier owning the facilities or entitled to use the facilities to handle its own business. The rail carriers are responsible for establishing the conditions and compensation for use of the facilities. However, if the rail carriers cannot agree, the Board may establish conditions and compensation for use of the facilities under the principle controlling compensation in condemnation proceedings. The compensation shall be paid or adequately secured before a rail carrier may begin to use the facilities of another rail carrier under this section.

(b) A rail carrier whose terminal facilities are required to be used by another rail carrier under this section is entitled to recover damages from the other rail carrier for injuries sustained as the result of compliance with the requirement or for compensation for the use, or both as appropriate, in a civil action, if it is not satisfied with the conditions for use of the facilities or if the amount of the compensation is not paid promptly.

(c)(1) The Board may require rail carriers to enter into reciprocal switching agreements, where it finds such agreements to be practicable and in the public interest, or where such agreements are necessary to provide competitive rail service. The rail carriers entering into such an agreement shall establish the conditions and compensation applicable to such agreement, but, if the rail carriers cannot agree upon such conditions and compensation within a reasonable period of time, the Board may establish such conditions and compensation.

(2) The Board may require reciprocal switching agreements entered into by rail carriers pursuant to this subsection to contain provisions for the protection of the interests of employees affected thereby.

(d) The Board shall complete any proceeding under subsection (a) or (b) within 180 days after the filing of the request for relief.

(Added Pub. L. 104-88, title I, §102(a), Dec. 29, 1995, 109 Stat. 831.)

§ 11103. Switch connections and tracks

(a) On application of the owner of a lateral branch line of railroad, or of a shipper tendering interstate traffic for transportation, a rail carrier providing transportation subject to the jurisdiction of the Board under this part shall construct, maintain, and operate, on reasonable conditions, a switch connection to connect that branch line or private side track with its railroad and shall furnish cars to move that traffic to the best of its ability without discrimination in favor of or against the shipper when the connection—

- (1) is reasonably practicable;
- (2) can be made safely; and
- (3) will furnish sufficient business to justify its construction and maintenance.

(b) If a rail carrier fails to install and operate a switch connection after application is made under subsection (a) of this section, the owner of the lateral branch line of railroad or the shipper may file a complaint with the Board under section 11701 of this title. The Board shall investigate the complaint and decide the safety, practicability, justification, and compensation to be paid for the connection. The Board may direct the rail carrier to comply with subsection (a) of this section only after a full hearing.
