“(3) to promote commonality and interoperability between counter-drug detection and monitoring systems in a cost-effective manner; and

“(4) to maximize the potential of using counter-drug detection and monitoring systems for other defense missions whenever practicable.

The plan shall include an estimate by the Secretary of the full cost to implement the plan, including the cost to develop, procure, operate, and maintain equipment used in counter-drug detection and monitoring activities performed under the plan and training and personnel costs associated with such activities.

“(d) REPORT.—Not later than six months after the date of the enactment of this Act [Oct. 23, 1992], the Secretary of Defense shall submit to Congress a report on the requirements established under subsection (a) and the results of the evaluation conducted under subsection (b). “(2) Paragraph (1) shall not prohibit obligations or expenditures of funds for—

“(A) any procurement, upgrading, research and development, or lease of a counter-drug detection and monitoring system that is necessary to carry out the evaluation required under subsection (b); or

“(f) DEFINITION.—For purposes of this section, the term ‘counter-drug detection and monitoring systems’ means land-, air-, and sea-based detection and monitoring systems suitable for use by the Department of Defense in the performance of its mission—
