(b) In cataloging, the Secretary shall name, describe, classify, and number each item recurrently used, bought, stocked, or distributed by the Department of Defense, so that only one distinctive combination of letters or numerals, or both, identifies the same item throughout the Department of Defense. (c) In standardizing supplies the Secretary shall, to the highest degree practicable—

(1) standardize items used throughout the Department of Defense by developing and using single specifications, eliminating overlapping and duplicate specifications, and reducing the number of sizes and kinds of items that are generally similar;

(2) standardize the methods of packing, packaging, and preserving such items; and

(3) make efficient use of the services and facilities for inspecting, testing, and accepting such items.

(d) The Secretary shall coordinate with the Administrator of General Services to enable the use of commercial identifiers for commercial items within the Federal cataloging system.
