§ 1677i. Downstream product monitoring**(a) Petition requesting monitoring****(1) In general**

A domestic producer of an article that is like a component part or a downstream product may petition the administering authority to designate a downstream product for monitoring under subsection (b). The petition shall specify—

- (A) the downstream product,
- (B) the component product incorporated into such downstream product, and
- (C) the reasons for suspecting that the imposition of antidumping or countervailing duties has resulted in a diversion of exports of the component part into increased production and exportation to the United States of such downstream product.

(2) Determination regarding petition

Within 14 days after receiving a petition submitted under paragraph (1), the administering authority shall determine—

- (A) whether there is a reasonable likelihood that imports into the United States of the downstream product will increase as an indirect result of any diversion with respect to the component part, and
- (B) whether—
 - (i) the component part is already subject to monitoring to aid in the enforcement of a bilateral arrangement (within the meaning of section 804 of the Trade and Tariff Act of 1984),
 - (ii) merchandise related to the component part and manufactured in the same foreign country in which the component part is manufactured has been the subject of a significant number of investigations suspended under section 1671c or 1673c of this title or countervailing or antidumping duty orders issued under this subtitle or section 1303¹ of this title, or
 - (iii) merchandise manufactured or exported by the manufacturer or exporter of the component part that is similar in description and use to the component part has been the subject of at least 2 investigations suspended under section 1671c or 1673c of this title or countervailing or antidumping duty orders issued under this subtitle or section 1303¹ of this title.

(3) Factors to take into account

In making a determination under paragraph (2)(A), the administering authority may, if appropriate, take into account such factors as—

- (A) the value of the component part in relation to the value of the downstream product,
- (B) the extent to which the component part has been substantially transformed as a result of its incorporation into the downstream product, and
- (C) the relationship between the producers of component parts and producers of downstream products.

(4) Publication of determination

The administering authority shall publish in the Federal Register notice of each determina-

tion made under paragraph (2) and, if the determination made under paragraph (2)(A) and a determination made under any subparagraph of paragraph (2)(B) are affirmative, shall transmit a copy of such determinations and the petition to the Commission.

(5) Determinations not subject to judicial review

Notwithstanding any other provision of law, any determination made by the administering authority under paragraph (2) shall not be subject to judicial review.

(b) Monitoring by Commission**(1) In general**

If the determination made under subsection (a)(2)(A) and a determination made under any clause of subsection (a)(2)(B) with respect to a petition are affirmative, the Commission shall immediately commence monitoring of trade in the downstream product that is the subject of the determination made under subsection (a)(2)(A). If the Commission finds that imports of a downstream product being monitored increased during any calendar quarter by 5 percent or more over the preceding quarter, the Commission shall analyze that increase in the context of overall economic conditions in the product sector.

(2) Reports

The Commission shall make quarterly reports to the administering authority regarding the monitoring and analyses conducted under paragraph (1). The Commission shall make the reports available to the public.

(c) Action on basis of monitoring reports

The administering authority shall review the information in the reports submitted by the Commission under subsection (b)(2) and shall—

- (1) consider the information in determining whether to initiate an investigation under section 1671a(a) or 1673a(a) of this title regarding any downstream product, and
- (2) request the Commission to cease monitoring any downstream product if the information indicates that imports into the United States are not increasing and there is no reasonable likelihood of diversion with respect to component parts.

(d) Definitions

For purposes of this section—

- (1) The term “component part” means any imported article that—
 - (A) during the 5-year period ending on the date on which the petition is filed under subsection (a), has been subject to—

 - (ii) an agreement entered into under section 1671c, 1673c, or 1303¹ of this title after a preliminary affirmative determination under section 1671b(b), 1673b(b)(1), or 1303¹ of this title was made by the administering authority which included a determina-
