§ 274a. International biological program

(a) Congressional findings

The Congress hereby finds and declares that the international biological program, which was established under the auspices of the International Council of Scientific Unions and the International Union of Biological Sciences and is sponsored in the United States by the National Academy of Sciences and the National Academy of Engineering, deals with one of the most crucial situations to face this or any other civilization—the immediate or near potential of mankind to damage, possibly beyond repair, the earth’s ecological system on which all life depends. The Congress further finds and declares that the international biological program provides an immediate and effective means available of meeting this situation, through its stated objectives of increased study and research related to biological productivity and human welfare in a changing world environment.

(b) Congressional support

The Congress therefore commends and endorses the international biological program and expresses its support of the United States National Committee and the Interagency Coordinating Committee, which together have the responsibility for planning, coordinating, and carrying out the program in the United States.

(c) Priority

In view of the urgency of the problem, the Congress finds and declares that the provision by the United States of adequate financial and other support for the international biological program is a matter of first priority.

(Pub. L. 91-438, §1, Oct. 7, 1970, 84 Stat. 889.)

§ 274b. Cooperation of Federal and non-Federal departments, agencies, and organizations; transfers of funds

(a) Full cooperation with international biological program

The Congress calls upon all Federal departments and agencies and other persons and organizations, both public and private, to support and cooperate fully with the international biological program and the activities and goals of the United States National Committee and the Interagency Coordinating Committee.

(b) Authorization for transfers of funds

For this purpose, the Congress authorizes and requests all Federal departments and agencies having functions or objectives which coincide with or are related to those of the international biological program to obligate or make appropriate transfers of funds to the program from moneys available for such functions or objectives and provide such other support as may be appropriate.

(Pub. L. 91-438, §2, Oct. 7, 1970, 84 Stat. 889.)

§ 275. International Hydrographic Bureau

To enable the United States to become a member of the International Hydrographic Bureau,
