

respect to any category of specified insurance contracts, the percentage (applicable under subsection (c)(1) to such category) of the amount (if any) by which—

(A) the amount determined under subparagraph (B) of subsection (d)(1) with respect to such category, exceeds

(B) the amount determined under subparagraph (A) of subsection (d)(1) with respect to such category.

(g) Treatment of certain ceding commissions

Nothing in any provision of law (other than this section or section 197) shall require the capitalization of any ceding commission incurred on or after September 30, 1990, under any contract which reinsures a specified insurance contract.

(h) Secretarial authority to adjust capitalization amounts

(1) In general

Except as provided in paragraph (2), the Secretary may provide that a type of insurance contract will be treated as a separate category for purposes of this section (and prescribe a percentage applicable to such category) if the Secretary determines that the deferral of acquisition expenses for such type of contract which would otherwise result under this section is substantially greater than the deferral of acquisition expenses which would have resulted if actual acquisition expenses (including indirect expenses) and the actual useful life for such type of contract had been used.

(2) Adjustment to other contracts

If the Secretary exercises his authority with respect to any type of contract under paragraph (1), the Secretary shall adjust the percentage which would otherwise have applied under subsection (c)(1) to the category which includes such type of contract so that the exercise of such authority does not result in a decrease in the amount of revenue received under this chapter by reason of this section for any fiscal year.

(i) Treatment of qualified foreign contracts under adjusted current earnings preference

For purposes of determining adjusted current earnings under section 56(g), acquisition expenses with respect to contracts described in clause (iii) of subsection (e)(1)(B) shall be capitalized and amortized in accordance with the treatment generally required under generally accepted accounting principles as if this subsection applied to such contracts for all taxable years.
