

(Pub. L. 111–11, title XII, § 12307, Mar. 30, 2009, 123 Stat. 1435.)

§ 3607. Public-private use policy

The Council shall develop a policy within 6 months after March 30, 2009, that defines processes for making decisions about the roles of the Federal Government, the States, regional information coordination entities, the academic community, and the private sector in providing to end-user communities environmental information, products, technologies, and services related to the System. The Council shall publish the policy in the Federal Register for public comment for a period not less than 60 days. Nothing in this section shall be construed to require changes in policy in effect on March 30, 2009.

(Pub. L. 111–11, title XII, § 12308, Mar. 30, 2009, 123 Stat. 1435.)

§ 3608. Independent cost estimate

Within 1 year after March 30, 2009, the Interagency Ocean Observation Committee, through the Administrator and the Director of the National Science Foundation, shall obtain an independent cost estimate for operations and maintenance of existing Federal assets of the System, and planned or anticipated acquisition, operation, and maintenance of new Federal assets for the System, including operation facilities, observation equipment, modeling and software, data management and communication, and other essential components. The independent cost estimate shall be transmitted unabridged and without revision by the Administrator to Congress.

(Pub. L. 111–11, title XII, § 12309, Mar. 30, 2009, 123 Stat. 1436.)

§ 3609. Intent of Congress

It is the intent of Congress that funding provided to agencies of the Council to implement this chapter shall supplement, and not replace, existing sources of funding for other programs. It is the further intent of Congress that agencies of the Council shall not enter into contracts or agreements for the development or procurement of new Federal assets for the System that are estimated to be in excess of \$250,000,000 in life-cycle costs without first providing adequate notice to Congress and opportunity for review and comment.

(Pub. L. 111–11, title XII, § 12310, Mar. 30, 2009, 123 Stat. 1436.)

§ 3610. Authorization of appropriations

There are authorized to be appropriated to the Secretary of Commerce for fiscal years 2009 through 2013 such sums as are necessary to fulfill the purposes of this chapter and support activities identified in the annual coordinated System budget developed by the Interagency Ocean Observation Committee and submitted to the Congress.

(Pub. L. 111–11, title XII, § 12311, Mar. 30, 2009, 123 Stat. 1436.)

§ 3611. Assessing and modeling named storms over coastal States

(a) Definitions

In this section:

(1) COASTAL Formula

The term “COASTAL Formula” has the meaning given the term in section 4057(a) of title 42.

(2) Coastal State

The term “coastal State” has the meaning given the term “coastal state” in section 1453 of title 16.

(3) Coastal waters

The term “coastal waters” has the meaning given the term in such section.

(4) Covered data

The term “covered data” means, with respect to a named storm identified by the Administrator under subsection (b)(2)(A), empirical data that are—

(A) collected before, during, or after such storm; and

(B) necessary to determine magnitude and timing of wind speeds, rainfall, the barometric pressure, river flows, the extent, height, and timing of storm surge, topographic and bathymetric data, and other measures required to accurately model and assess damage from such storm.

(5) Indeterminate loss

The term “indeterminate loss” has the meaning given the term in section 4057(a) of title 42.

(6) Named storm

The term “named storm” means any organized weather system with a defined surface circulation and maximum winds of at least 39 miles per hour which the National Hurricane Center of the United States National Weather Service names as a tropical storm or a hurricane.

(7) Named Storm Event Model

The term “Named Storm Event Model” means the official meteorological and oceanographic computerized model, developed by the Administrator under subsection (b)(1)(A), which utilizes covered data to replicate the magnitude, timing, and spatial variations of winds, rainfall, and storm surges associated with named storms that threaten any portion of a coastal State.

(8) Participant

The term “participant” means a Federal, State, or private entity that chooses to cooperate with the Administrator in carrying out the provisions of this section by collecting, contributing, and maintaining covered data.

(9) Post-storm assessment

The term “post-storm assessment” means a scientific assessment produced and certified by the Administrator to determine the magnitude, timing, and spatial variations of winds, rainfall, and storm surges associated

with a specific named storm to be used in the COASTAL Formula.

(10) State

The term “State” means a State of the United States, the District of Columbia, the Commonwealth of Puerto Rico, and any other territory or possession of the United States.

(b) Named Storm Event Model and post-storm assessment

(1) Establishment of Named Storm Event Model

(A) In general

Not later than 540 days after July 6, 2012, the Administrator shall develop by regulation the Named Storm Event Model.

(B) Accuracy

The Named Storm Event Model shall be designed to generate post-storm assessments, as provided in paragraph (2), that have a degree of accuracy of not less than 90 percent for every indeterminate loss for which a post-storm assessment is utilized.

(2) Post-storm assessment

(A) Identification of named storms threatening coastal States

After the establishment of the COASTAL Formula, the Administrator shall, in consultation with the Secretary of Homeland Security, identify named storms that may reasonably constitute a threat to any portion of a coastal State.

(B) Post-storm assessment required

Upon identification of a named storm under subparagraph (A), the Administrator shall develop a post-storm assessment for such named storm using the Named Storm Event Model and covered data collected for such named storm pursuant to the protocol established under subsection (c)(1).

(C) Submittal of post-storm assessment

Not later than 90 days after an identification of a named storm is made under subparagraph (A), the Administrator shall submit to the Secretary of Homeland Security the post-storm assessment developed for such storm under subparagraph (B).

(3) Accuracy

The Administrator shall ensure, to the greatest extent practicable, that each post-storm assessment developed under paragraph (2) has a degree of accuracy of not less than 90 percent.

(4) Certification

For each post-storm assessment carried out under paragraph (2), the Administrator shall—

(A) certify the degree of accuracy for such assessment, including specific reference to any segments or geographic areas for which the assessment is less than 90 percent accurate; and

(B) report such certification to the Secretary of Homeland Security for the purposes of use with indeterminate loss claims under section 4057 of title 42.

(5) Finality of determinations

A certification of the degree of accuracy of a post-storm assessment under this subsection

by the Administrator shall be final and shall not be subject to judicial review.

(6) Availability

The Administrator shall make available to the public the Named Storm Event Model and any post-storm assessment developed under this subsection.

(c) Establishment of a protocol for post-storm assessment

(1) In general

Not later than 540 days after July 6, 2012, the Administrator shall establish a protocol, based on the plan submitted under subsection (d)(3), to collect and assemble all covered data required by the Administrator to produce post-storm assessments required by subsection (b), including assembling data collected by participants and stored in the database established under subsection (f) and from such other sources as the Administrator considers appropriate.

(2) Acquisition of sensors and structures

If the Administrator is unable to use a public or private asset to obtain covered data as part of the protocol established under paragraph (1), the Administrator may acquire such sensors and structures for the placement of sensors as may be necessary to obtain such data.

(3) Use of Federal assets

If the protocol requires placement of a sensor to develop assessments pursuant to subsection (b), the Administrator shall, to the extent practicable, use Federal assets for the placement of such sensors.

(4) Use of acquired structures

(A) In general

If the Administrator acquires a structure for the placement of a sensor for purposes of such protocol, the Administrator shall to the extent practical permit other public and private entities to place sensors on such structure to collect—

- (i) meteorological data;
- (ii) national security-related data;
- (iii) navigation-related data;
- (iv) hydrographic data; or
- (v) such other data as the Administrator considers appropriate.

(B) Receipt of consideration

The Administrator may receive consideration for the placement of a sensor on a structure under subparagraph (A).

(C) In-kind consideration

Consideration received under subparagraph (B) may be received in-kind.

(D) Use of consideration

To the extent practicable, consideration received under subparagraph (B) shall be used for the maintenance of sensors used to collect covered data.

(5) Coordinated deployments and data collection practices

The Administrator shall, in consultation with the Office of the Federal Coordinator for

Meteorology, coordinate the deployment of sensors as part of the protocol established under paragraph (1) and related data collection carried out by Federal, State, academic, and private entities who choose to cooperate with the Administrator in carrying out this subsection.

(6) Priority acquisition and deployment

The Administrator shall give priority in the acquisition for and deployment of sensors under the protocol required by paragraph (1) to areas of coastal States that have the highest risk of being harmed by named storms.

(d) Assessment of systems and efforts to collect covered data

(1) Identification of systems and efforts to collect covered data

Not later than 180 days after July 6, 2012, the Administrator shall, in consultation with the Office of the Federal Coordinator for Meteorology—

(A) carry out a survey to identify all Federal and State efforts and systems that are capable of collecting covered data; and

(B) consult with private and academic sector entities to identify domestic private and academic systems that are capable of collecting covered data.

(2) Identification of gaps

The Administrator shall, in consultation with the Office of the Federal Coordinator for Meteorology and individuals and entities consulted under subsection (e)(3), assess the systems identified under paragraph (1) and identify which systems meet the needs of the National Oceanic and Atmospheric Administration for the collection of covered data, including with respect to the accuracy requirement for post-storm assessment under subsection (b)(3).

(3) Plan

Not later than 270 days after July 6, 2012, the Administrator shall, in consultation with the Office of the Federal Coordinator for Meteorology, submit to Congress a plan for the collection of covered data necessary to develop the Named Storm Event Model and post-storm assessment required by subsection (b) that addresses any gaps identified in paragraph (2).

(e) Coordination of covered data collection and maintenance by participants

(1) In general

The Administrator shall, in consultation with the Office of the Federal Coordinator for Meteorology, coordinate the collection and maintenance of covered data by participants under this section—

(A) to streamline the process of collecting covered data in accordance with the protocol established under subsection (c)(1); and

(B) to maintain transparency of such process and the database established under subsection (f).

(2) Sharing information

The Administrator shall establish a process for sharing among participants information

relevant to collecting and using covered data for—

(A) academic research;

(B) private sector use;

(C) public outreach; and

(D) such other purposes as the Administrator considers appropriate.

(3) Consultation

In carrying out paragraphs (1) and (2), the Administrator shall consult with the following:

(A) The Commanding General of the Corps of Engineers.

(B) The Administrator of the Federal Emergency Management Agency.

(C) The Commandant of the Coast Guard.

(D) The Director of the United States Geological Survey.

(E) The Office of the Federal Coordinator for Meteorology.

(F) The Director of the National Science Foundation.

(G) The Administrator of the National Aeronautics and Space Administration.

(H) Such public, private, and academic sector entities as the Administrator considers appropriate for purposes of carrying out the provisions of this section.

(f) Establishment of Coastal Wind and Water Event Database

(1) In general

Not later than 1 year after July 6, 2012, the Administrator shall establish a database for the collection and compilation of covered data—

(A) to support the protocol established under subsection (c)(1); and

(B) for the purposes listed in subsection (e)(2).

(2) Designation

The database established under paragraph (1) shall be known as the “Coastal Wind and Water Event Database”.

(g) Comptroller General study

Not later than 1 year after July 6, 2012, the Comptroller General of the United States shall—

(1) complete an audit of Federal efforts to collect covered data for purposes of the Consumer Option for an Alternative System to Allocate Losses Act of 2012, which audit shall—

(A) examine duplicated Federal efforts to collect covered data; and

(B) determine the cost effectiveness of such efforts; and

(2) submit to the Committee on Banking, Housing, and Urban Affairs and the¹ Commerce, Science, and Transportation of the Senate and the Committee on Financial Services and the Committee on Science, Space, and Technology of the House of Representatives a report on the findings of the Comptroller General with respect to the audit completed under paragraph (1).

(Pub. L. 111–11, title XII, § 12312, as added Pub. L. 112–141, div. F, title II, § 100252, July 6, 2012, 126 Stat. 969.)

¹So in original. Probably should be followed by “Committee on”.

REFERENCES IN TEXT

The Consumer Option for an Alternative System to Allocate Losses Act of 2012, referred to in subsec. (g)(1), is subtitle B (§§100251–100253) of title II of div. F of Pub. L. 112–141, which enacted this section, section 4057 of Title 42, the Public Health and Welfare, and provisions set out as a note under section 4001 of Title 42. For complete classification of this Act to the Code, see Short Title of 2012 Amendment note set out under section 4001 of Title 42 and Tables.

CHAPTER 50—FEDERAL OCEAN ACIDIFICATION RESEARCH AND MONITORING

Sec.	
3701.	Purposes.
3702.	Definitions.
3703.	Interagency Subcommittee.
3704.	Strategic research plan.
3705.	NOAA ocean acidification activities.
3706.	NSF ocean acidification activities.
3707.	NASA ocean acidification activities.
3708.	Authorization of appropriations.

§ 3701. Purposes

(a) Purposes

The purposes of this chapter are to provide for—

(1) development and coordination of a comprehensive interagency plan to—

(A) monitor and conduct research on the processes and consequences of ocean acidification on marine organisms and ecosystems; and

(B) establish an interagency research and monitoring program on ocean acidification;

(2) establishment of an ocean acidification program within the National Oceanic and Atmospheric Administration;

(3) assessment and consideration of regional and national ecosystem and socioeconomic impacts of increased ocean acidification; and

(4) research adaptation strategies and techniques for effectively conserving marine ecosystems as they cope with increased ocean acidification.

(Pub. L. 111–11, title XII, §12402, Mar. 30, 2009, 123 Stat. 1436.)

SHORT TITLE

Pub. L. 111–11, title XII, §12401, Mar. 30, 2009, 123 Stat. 1436, provided that: “This subtitle [subtitle D (§§12401–12409) of title XII of Pub. L. 111–11, enacting this chapter] may be cited as the ‘Federal Ocean Acidification Research And Monitoring Act of 2009’ or the ‘FOARAM Act’.”

§ 3702. Definitions

In this chapter:

(1) Ocean acidification

The term “ocean acidification” means the decrease in pH of the Earth’s oceans and changes in ocean chemistry caused by chemical inputs from the atmosphere, including carbon dioxide.

(2) Secretary

The term “Secretary” means the Secretary of Commerce, acting through the Administrator of the National Oceanic and Atmospheric Administration.

(3) Subcommittee

The term “Subcommittee” means the Joint Subcommittee on Ocean Science and Tech-

nology of the National Science and Technology Council.

(Pub. L. 111–11, title XII, §12403, Mar. 30, 2009, 123 Stat. 1437.)

§ 3703. Interagency Subcommittee

(a) Designation

(1) In general

The Joint Subcommittee on Ocean Science and Technology of the National Science and Technology Council shall coordinate Federal activities on ocean acidification and establish an interagency working group.

(2) Membership

The interagency working group on ocean acidification shall be comprised of senior representatives from the National Oceanic and Atmospheric Administration, the National Science Foundation, the National Aeronautics and Space Administration, the United States Geological Survey, the United States Fish and Wildlife Service, and such other Federal agencies as appropriate.

(3) Chairman

The interagency working group shall be chaired by the representative from the National Oceanic and Atmospheric Administration.

(b) Duties

The Subcommittee shall—

(1) develop the strategic research and monitoring plan to guide Federal research on ocean acidification required under section 3704 of this title and oversee the implementation of the plan;

(2) oversee the development of—

(A) an assessment of the potential impacts of ocean acidification on marine organisms and marine ecosystems; and

(B) adaptation and mitigation strategies to conserve marine organisms and ecosystems exposed to ocean acidification;

(3) facilitate communication and outreach opportunities with nongovernmental organizations and members of the stakeholder community with interests in marine resources;

(4) coordinate the United States Federal research and monitoring program with research and monitoring programs and scientists from other nations; and

(5) establish or designate an Ocean Acidification Information Exchange to make information on ocean acidification developed through or utilized by the interagency ocean acidification program accessible through electronic means, including information which would be useful to policymakers, researchers, and other stakeholders in mitigating or adapting to the impacts of ocean acidification.

(c) Reports to Congress

(1) Initial report

Not later than 1 year after March 30, 2009, the Subcommittee shall transmit a report to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Science and Technology and the Com-
