- (1) a medical emergency exists,
- (2) the specific chemical identity of the chemical concerned is necessary for or will assist in emergency or first-aid diagnosis or treatment, and
- (3) the individual or individuals being diagnosed or treated have been exposed to the chemical concerned.

Immediately following such a request, the owner or operator to whom such request is made shall provide the requested information to the physician or nurse. The authority to withhold the specific chemical identity of a chemical from a material safety data sheet, an inventory form, or a toxic chemical release form under section 11042 of this title when such information is a trade secret shall not apply to information required to be provided to a treating physician or nurse under this subsection. No written confidentiality agreement or statement of need shall be required as a precondition of such disclosure, but the owner or operator disclosing such information may require a written confidentiality agreement in accordance with subsection (d) of this section and a statement setting forth the items listed in paragraphs (1) through (3) as soon as circumstances permit.

**(c) Preventive measures by local health professionals**

**(1) Provision of information**

An owner or operator of a facility subject to the requirements of section 11021, 11022, or 11023 of this title shall provide the specific chemical identity, if known, of a hazardous chemical, an extremely hazardous substance, or a toxic chemical to any health professional (such as a physician, toxicologist, or epidemiologist)—

- (A) who is a local government employee or a person under contract with the local government, and
- (B) who requests such information in writing and provides a written statement of need under paragraph (2) and a written confidentiality agreement under subsection (d) of this section.

Following such a written request, the owner or operator to whom such request is made shall promptly provide the requested information to the local health professional. The authority to withhold the specific chemical identity of a chemical under section 11042 of this title when such information is a trade secret shall not apply to information required to be provided under this subsection, subject to the provisions of subsection (d) of this section.

**(2) Written statement of need**

The written statement of need shall be a statement that describes with reasonable detail one or more of the following health needs for the information:

(B) To conduct or assess sampling to determine exposure levels of various population groups.

(C) To conduct periodic medical surveillance of exposed population groups.

(D) To provide medical treatment to exposed individuals or population groups.

(E) To conduct studies to determine the health effects of exposure.

(F) To conduct studies to aid in the identification of a chemical that may reasonably be anticipated to cause an observed health effect.

**(d) Confidentiality agreement**

Any person obtaining information under subsection (a) or (c) of this section shall, in accordance with such subsection (a) or (c) of this section, be required to agree in a written confidentiality agreement that he will not use the information for any purpose other than the health needs asserted in the statement of need, except as may otherwise be authorized by the terms of the agreement or by the person providing such information. Nothing in this subsection shall preclude the parties to a confidentiality agreement from pursuing any remedies to the extent permitted by law.

**(e) Regulations**

As soon as practicable after October 17, 1986, the Administrator shall promulgate regulations describing criteria and parameters for the statement of need under subsection<sup>1</sup> (a) and (c) of this section and the confidentiality agreement under subsection (d) of this section.
