**§ 15601. Findings**

Congress makes the following findings:

(1) 2,100,146 persons were incarcerated in the United States at the end of 2001: 1,324,465 in Federal and State prisons and 631,240 in county and local jails. In 1999, there were more than 10,000,000 separate admissions to and discharges from prisons and jails.

(2) Insufficient research has been conducted and insufficient data reported on the extent of prison rape. However, experts have conservatively estimated that at least 13 percent of the inmates in the United States have been sexually assaulted in prison. Many inmates have suffered repeated assaults. Under this estimate, nearly 200,000 inmates now incarcerated have been or will be the victims of prison rape. The total number of inmates who have been sexually assaulted in the past 20 years likely exceeds 1,000,000.

(3) Inmates with mental illness are at increased risk of sexual victimization. America's jails and prisons house more mentally ill individuals than all of the Nation's psychiatric hospitals combined. As many as 16 percent of inmates in State prisons and jails, and 7 percent of Federal inmates, suffer from mental illness.

(4) Young first-time offenders are at increased risk of sexual victimization. Juveniles are 5 times more likely to be sexually assaulted in adult rather than juvenile facilities—often within the first 48 hours of incarceration.

(5) Most prison staff are not adequately trained or prepared to prevent, report, or treat inmate sexual assaults.

(6) Prison rape often goes unreported, and inmate victims often receive inadequate treat-
