

Sec.
4853a. Coordination between Environmental Protection Agency and Department of Labor.

SUBCHAPTER III—RESEARCH AND DEVELOPMENT

PART 1—HUD RESEARCH

4854. Research on lead exposure from other sources.
4854a. Testing technologies.
4854b. Authorization.

PART 2—GAO REPORT

4855. Federal implementation and insurance study.

SUBCHAPTER IV—REPORTS

4856. Reports of Secretary of Housing and Urban Development.

§ 4851. Findings

The Congress finds that—

(1) low-level lead poisoning is widespread among American children, afflicting as many as 3,000,000 children under age 6, with minority and low-income communities disproportionately affected;

(2) at low levels, lead poisoning in children causes intelligence quotient deficiencies, reading and learning disabilities, impaired hearing, reduced attention span, hyperactivity, and behavior problems;

(3) pre-1980 American housing stock contains more than 3,000,000 tons of lead in the form of lead-based paint, with the vast majority of homes built before 1950 containing substantial amounts of lead-based paint;

(4) the ingestion of household dust containing lead from deteriorating or abraded lead-based paint is the most common cause of lead poisoning in children;

(5) the health and development of children living in as many as 3,800,000 American homes is endangered by chipping or peeling lead paint, or excessive amounts of lead-contaminated dust in their homes;

(6) the danger posed by lead-based paint hazards can be reduced by abating lead-based paint or by taking interim measures to prevent paint deterioration and limit children's exposure to lead dust and chips;

(7) despite the enactment of laws in the early 1970's requiring the Federal Government to eliminate as far as practicable lead-based paint hazards in federally owned, assisted, and insured housing, the Federal response to this national crisis remains severely limited; and

(8) the Federal Government must take a leadership role in building the infrastructure—including an informed public, State and local delivery systems, certified inspectors, contractors, and laboratories, trained workers, and available financing and insurance—necessary to ensure that the national goal of eliminating lead-based paint hazards in housing can be achieved as expeditiously as possible.

(Pub. L. 102-550, title X, §1002, Oct. 28, 1992, 106 Stat. 3897.)

SHORT TITLE

Pub. L. 102-550, title X, §1001, Oct. 28, 1992, 106 Stat. 3897, provided that: “This title [enacting this chapter and sections 2681 to 2692 of Title 15, Commerce and Trade, amending sections 1437f, 1437aaa-1, 1437aaa-2,

1471, 4822, 5305, 12705, 12742, 12872, 12873, 12892, and 12893 of this title, sections 1703, 1709, and 1715f of Title 12, Banks and Banking, sections 2606, 2610, 2612, 2615, 2616, 2618, and 2619 of Title 15, and section 671 of Title 29, Labor, and enacting provisions set out as a note under section 2601 of Title 15] may be cited as the ‘Residential Lead-Based Paint Hazard Reduction Act of 1992’.”

§ 4851a. Purposes

The purposes of this chapter are—

(1) to develop a national strategy to build the infrastructure necessary to eliminate lead-based paint hazards in all housing as expeditiously as possible;

(2) to reorient the national approach to the presence of lead-based paint in housing to implement, on a priority basis, a broad program to evaluate and reduce lead-based paint hazards in the Nation's housing stock;

(3) to encourage effective action to prevent childhood lead poisoning by establishing a workable framework for lead-based paint hazard evaluation and reduction and by ending the current confusion over reasonable standards of care;

(4) to ensure that the existence of lead-based paint hazards is taken into account in the development of Government housing policies and in the sale, rental, and renovation of homes and apartments;

(5) to mobilize national resources expeditiously, through a partnership among all levels of government and the private sector, to develop the most promising, cost-effective methods for evaluating and reducing lead-based paint hazards;

(6) to reduce the threat of childhood lead poisoning in housing owned, assisted, or transferred by the Federal Government; and

(7) to educate the public concerning the hazards and sources of lead-based paint poisoning and steps to reduce and eliminate such hazards.

(Pub. L. 102-550, title X, §1003, Oct. 28, 1992, 106 Stat. 3897.)

REFERENCES IN TEXT

This chapter, referred to in text, was in the original “this Act”, meaning title X of Pub. L. 102-550, Oct. 28, 1992, 106 Stat. 3897, known as the Residential Lead-Based Paint Hazard Reduction Act of 1992. For complete classification of this Act to the Code, see Short Title note set out under section 4851 of this title and Tables.

§ 4851b. Definitions

For the purposes of this chapter, the following definitions shall apply:

(1) Abatement

The term “abatement” means any set of measures designed to permanently eliminate lead-based paint hazards in accordance with standards established by appropriate Federal agencies. Such term includes—

(A) the removal of lead-based paint and lead-contaminated dust, the permanent containment or encapsulation of lead-based paint, the replacement of lead-painted surfaces or fixtures, and the removal or covering of lead contaminated soil; and

(B) all preparation, cleanup, disposal, and postabatement clearance testing activities associated with such measures.
