SUBCHAPTER V—ADMINISTRATION OF EXISTING PROJECTS

§ 423. Permanently unproductive lands; exclusion from project; disposition of water right

All lands found by the classification made under the supervision of the Board of Survey and Adjustments (House Document 201, 69th Congress, 1st Session, checked and modified as outlined in General Recommendations numbered 2 and 4, Page 60 of said document), to be permanently unproductive shall be excluded from the project and no water shall be delivered to them after the date of such exclusion unless and until they are restored to the project. Except as herein otherwise provided, the water right formerly appurtenant to such permanently unproductive lands shall be disposed of by the United States under the reclamation law: *Provided*, That the water users on the projects shall have a preference right to the use of the water: *And provided further*, That any surplus water temporarily available may be furnished upon a rental basis for use on lands excluded from the project under this section, on terms and conditions to be approved by the Secretary of the Interior.

(May 25, 1926, ch. 383, §§40, 41, 44 Stat. 647.)

SECTIONS 423 TO 423g AND 610 UNAFFECTED BY SECTIONS 451 TO 451k OF THIS TITLE

Act Aug. 13, 1953, ch. 428, §10, 67 Stat. 568, provided in part that: “Nothing contained in this Act [enacting sections 451 to 451k of this title] shall be held to repeal, supersede, or supplement the provisions for exchange and matters related thereto contained in the Act of May 25, 1926 (44 Stat. 636), as amended and supplemented [sections 423 to 423g and 610 of this title].”

§ 423a. Construction charges on permanently unproductive lands already paid; disposition

The construction charges prior to May 25, 1926, paid on permanently unproductive lands excluded from the project shall be applied as a credit on charges due or to become due on any remaining irrigable land covered by the same water-right contract or land taken in exchange as provided in section 423c of this title. If the charges so paid exceed the amount of all water-right charges due and unpaid, plus the construction charges not yet due, the balance shall be paid in cash to the holder of the water-right contract covering the land so excluded or to the irrigation district affected; which in turn shall be charged with the responsibility of making suitable adjustment with the landowners involved. Should all the irrigable lands of a water-right applicant be excluded from the project as permanently unproductive, and no exchange be made as provided in said section, the total construction charges paid before May 25, 1926, less any accrued charges on account of operation and maintenance, shall be refunded in cash, the water-right contract shall be canceled, and all liens on account of water-right charges shall be released.

(May 25, 1926, ch. 383, §42, 44 Stat. 647.)

§ 423b. Suspension of payment of construction charges against areas temporarily unproductive

The payment of all construction charges against said areas temporarily unproductive shall remain suspended until the Secretary of the Interior shall declare them to be possessed of sufficient productive power properly to be placed in a paying class, whereupon payment of construction charges against such areas shall be resumed or shall begin, as the case may be. Any payments made on such areas shall be credited to the unpaid balance of the construction charge on the productive area of each unit. Such credit shall be applied on and after April 23, 1930, which shall not be construed to require revision of accounts adjusted before April 23, 1930, under the provisions of this section as originally enacted. While said lands so classified as temporarily unproductive and the construction charges against them are suspended, water for irrigation purposes may be furnished upon payment of the usual operation and maintenance charges, or such other charges as may be fixed by the Secretary of the Interior the advance payment of which may be required, in the discretion of the said Secretary. Should said lands temporarily classed as unproductive, or any of them, in the future be found by the Secretary of the Interior to be permanently unproductive, the charges against them shall be charged off as a permanent loss to the reclamation fund and they shall thereupon be treated in the same manner as other permanently unproductive lands as provided in sections 423 to 423g and 610 of this title except that no refund shall be made of the construction charges paid on such unproductive areas and applied as a credit on productive areas as herein authorized.

Settlers who have unpatented entries under any of the public land laws embracing lands which have been eliminated from the project, or whose entries under water rights have been so reduced that the remaining area is insufficient to support a family, shall be entitled to exchange their entries for other public lands within the same project or any other existing Federal reclamation project, with credit under the

homestead laws for residence, improvement, and cultivation made or performed by them upon their original entries and with credit upon the new entry for any construction charges paid upon or in connection with the original entry: *Provided*, That when satisfactory final proof has been made on the original entry it shall not be necessary to submit final proof upon the lieu entry. Any entryman whose entry or farm unit is reduced by the elimination of permanently unproductive land shall be entitled to enter an equal amount of available public land on the same project contiguous to or in the vicinity of the farm unit reduced by elimination, with all credits in this section hereinbefore specified in lieu of the lands eliminated. Owners of private lands so eliminated from the project may, subject to the approval of the Secretary of the Interior, and free from all encumbrances, relinquish and convey to the United States lands so owned and held by them, not exceeding an area of one hundred and sixty acres, and select an equal area of vacant public land within the irrigable area of the same or any other Federal reclamation project, with credit upon the construction costs of the lands selected to the extent and in the amount paid upon or in connection with their relinquished lands, and the Secretary of the Interior is authorized to revise and consolidate farm units, so far as this may be made necessary or advisable, with a view to carrying out the provisions of this section: *Provided further*, That the rights extended under this section shall not be assignable: *And provided further*, That in administering the provisions of this section and section 423a of this title, the Secretary of the Interior shall take into consideration the rights and interests of lien holders, as to him may seem just and equitable: *Provided further*, That where two entrymen apply for the same farm unit under the exchange provisions of this section, only one whom¹ is an ex-service man, as defined by section 438² of this title, the ex-service man shall have a preference in making such exchange.
