**§ 231. Budgeting for construction of naval vessels: annual plan and certification**

(a) ANNUAL NAVAL VESSEL CONSTRUCTION PLAN AND CERTIFICATION.—The Secretary of Defense shall include with the defense budget materials for a fiscal year—

(1) a plan for the construction of combatant and support vessels for the Navy developed in accordance with this section; and

(2) a certification by the Secretary that both the budget for that fiscal year and the future-years defense program submitted to Congress in relation to such budget under section 221 of this title provide for funding of the construction of naval vessels at a level that is sufficient for the procurement of the vessels provided for in the plan under paragraph (1) on the schedule provided in that plan.

(b) ANNUAL NAVAL VESSEL CONSTRUCTION PLAN.—(1) The annual naval vessel construction plan developed for a fiscal year for purposes of subsection (a)(1) shall be designed so that the naval vessel force provided for under that plan supports the national security strategy of the United States as set forth in the most recent national security strategy report of the President under section 108 of the National Security Act of 1947 (50 U.S.C. 3043), except that, if at the time such plan is submitted with the defense budget materials for that fiscal year, a national security strategy report required under such section 108 has not been submitted to Congress as required by paragraph (2) or paragraph (3), if applicable, of subsection (a) of such section, then such annual plan shall be designed so that the naval vessel force provided for under that plan supports the ship force structure recommended in the report of the most recent quadrennial defense review.

(2) Each such naval vessel construction plan shall include the following:

(A) A detailed program for the construction of combatant and support vessels for the Navy over the next 30 fiscal years.

(B) A description of the necessary naval vessel force structure and capabilities to meet the requirements of the national security strategy of the United States or the most recent quadrennial defense review, whichever is applicable under paragraph (1).

(C) The estimated levels of annual funding by ship class in both graphical and tabular form necessary to carry out the program, together with a discussion of the procurement strategies on which such estimated levels of annual funding are based.

(D) The estimated total cost of construction for each vessel used to determine estimated levels of annual funding under subparagraph (C).

(c) ASSESSMENT WHEN ANNUAL NAVAL VESSEL CONSTRUCTION PLAN DOES NOT MEET FORCE STRUCTURE REQUIREMENTS.—If the annual naval vessel construction plan for a fiscal year under subsection (b) does not result in a force structure or capabilities that meet the requirements identified in subsection (b)(2)(B), the Secretary shall include with the defense budget materials for that fiscal year an assessment of the extent of the strategic and operational risk to national security associated with the reduced force structure of naval vessels over the period of time that the required force structure or capabilities are not achieved. Such assessment shall include an analysis of whether the risks are acceptable, and plans to mitigate such risks. Such assessment shall be coordinated in advance with the commanders of the combatant commands and the Nuclear Weapons Council under section 179 of this title.

(d) CBO EVALUATION.—Not later than 60 days after the date on which the congressional defense committees receive the plan under subsection (a)(1), the Director of the Congressional Budget Office shall submit to such committees a report assessing the sufficiency of the estimated levels of annual funding included in such plan with respect to the budget submitted during the year in which the plan is submitted and the future-years defense program submitted under section 221 of this title.

(e) LIMITATION ON AVAILABILITY OF FUNDS FOR FISCAL YEARS WITHOUT PLAN AND CERTIFICATION.—(1) If the Secretary of Defense does not include with the defense budget materials for a fiscal year the plan and certification under subsection (a), the Secretary of the Navy may not use more than 50 percent of the funds described in paragraph (2) during the fiscal year in which such materials are submitted until the date on which such plan and certification are submitted to the congressional defense committees.

(2) The funds described in this paragraph are funds made available to the Secretary of the Navy for operation and maintenance, Navy, for emergencies and extraordinary expenses.

(f) DEFINITIONS.—In this section:

(1) The term “budget”, with respect to a fiscal year, means the budget for that fiscal year that is submitted to Congress by the President under section 1105(a) of title 31.

(2) The term “defense budget materials”, with respect to a fiscal year, means the materials submitted to Congress by the Secretary of Defense in support of the budget for that fiscal year.
