Pub. L. 94–385, title I, § 143, Aug. 14, 1976, 90 Stat. 1140, provided that: “The amendments made by this part C to the Federal Energy Administration Act of 1974 [enacting this subchapter] shall take effect 150 days after the date of enactment of this Act [Aug. 14, 1976], except that section 56(c) of the Federal Energy Administration Act of 1974 (as added by this part) [section 790(c) of this title] shall take effect on the date of enactment of this Act [Aug. 14, 1976].”

TRANSFER OF FUNCTIONS

Federal Energy Administration terminated and functions vested by law in Administrator thereof trans-

ferred to Secretary of Energy (unless otherwise specifically provided) by sections 7151(a) and 7293 of Title 42, The Public Health and Welfare.

Functions assigned to Director of Office of Energy Information and Analysis under this subchapter vested in Administrator of Energy Information Administration within Department of Energy by section 7135(c) of Title 42.

CONGRESSIONAL FINDINGS AND PURPOSE

Pub. L. 94–385, title I, § 141, Aug. 14, 1976, 90 Stat. 1135, provided that:

“(a) The Congress finds that the public interest requires that decisionmaking, with respect to this Nation’s energy requirements and the sufficiency and availability of energy resources and supplies, be based on adequate, accurate, comparable, coordinated, and credible energy information.

“(b) The purpose of this title [see Short Title note set out under section 761 of this title] is to establish within the Federal Energy Administration an Office of Energy Information and Analysis and a National Energy Information System to assure the availability of adequate, comparable, accurate, and credible energy information to the Federal Energy Administration, to other Government agencies responsible for energy-related policy decisions, to the Congress, and to the public.”

§ 790a. National Energy Information System; information required to be maintained

(a) It shall be the duty of the Director to establish a National Energy Information System (hereinafter referred to in this chapter as the “System”), which shall be operated and maintained by the Office. The System shall contain such information as is required to provide a description of and facilitate analysis of energy supply and consumption within and affecting the United States on the basis of such geographic areas and economic sectors as may be appropriate to meet adequately the needs of—

(1) the Federal Energy Administration in carrying out its lawful functions;

(2) the Congress;

(3) other officers and employees of the United States in whom have been vested, or to whom have been delegated energy-related policy decisionmaking responsibilities; and

(4) the States to the extent required by the Natural Gas Act [15 U.S.C. 717 et seq.] and the Federal Power Act [16 U.S.C. 791a et seq.].

(b) At a minimum, the System shall contain such energy information as is necessary to carry out the Administration’s statistical and forecasting activities, and shall include, at the earliest date and to the maximum extent practical subject to the resources available and the Director’s ordering of those resources to meet the responsibilities of his Office, such energy information as is required to define and permit analysis of—

(1) the institutional structure of the energy supply system including patterns of ownership and control of mineral fuel and nonmineral energy resources and the production, distribution, and marketing of mineral fuels and electricity;

(2) the consumption of mineral fuels, nonmineral energy resources, and electricity by such classes, sectors, and regions as may be appropriate for the purposes of this chapter;

(3) the sensitivity of energy resource reserves, exploration, development, production,
