(B) establishing a mechanism to bring such information to the attention of the Senate and the House of Representatives before the Senate and the House of Representatives vote on proposed legislation;

(4) to promote informed and deliberate decisions by Congress on the appropriateness of Federal mandates in any particular instance;

(5) to require that Congress consider whether to provide funding to assist State, local, and tribal governments in complying with Federal mandates, to require analyses of the impact of private sector mandates, and through the dissemination of that information provide informed and deliberate decisions by Congress and Federal agencies and retain competitive balance between the public and private sectors;

(6) to establish a point-of-order vote on the consideration in the Senate and House of Representatives of legislation containing significant Federal intergovernmental mandates without providing adequate funding to comply with such mandates;

(7) to assist Federal agencies in their consideration of proposed regulations affecting State, local, and tribal governments, by—

(A) requiring that Federal agencies develop a process to enable the elected and other officials of State, local, and tribal governments to provide input when Federal agencies are developing regulations; and

(B) requiring that Federal agencies prepare and consider estimates of the budgetary
