##### (a) In general

The Broadcasting Board of Governors is authorized to lease or otherwise acquire time on commercial or United States Government satellites for the purpose of transmitting materials and programs to posts and other users abroad.

##### (b) Broadcast principles

The Congress finds that the long-term interests of the United States are served by commu-

nicating directly with the peoples of the world by television. To be effective, the Broadcasting Board of Governors must win the attention and respect of viewers. These principles will therefore govern the television broadcasts of the United States International Television Service:

(1) The United States International Television Service will serve as a consistently reliable and authoritative source of news. The United States International Television Service news will be accurate and objective.

(2) The United States International Television Service will represent the United States, not any single segment of American society and will, therefore, present a balanced and comprehensive projection of significant American thought and institutions.

(3) The United States International Television Service will present the policies of the United States clearly and effectively and will also present responsible discussions and opinion on these policies.

##### (c) Programs

The Broadcasting Board of Governors is authorized to produce, acquire, or broadcast television programs, via satellite, only if such programs—

(2) cover news, public affairs, or other current events;
