

specific domain expertise, and after consultation with the relevant agency to ensure that such requests align with their authorities and resources;

(b) the use of physical premises, equipment, and logistical or administrative support;

(c) relevant information, research, intelligence, and analysis; and

(d) such other resources and assistance as the Coordinator may request for the purpose of carrying out the responsibilities outlined in this order.

SEC. 6. *Establishment of a Temporary Organization.* (a) There is established within the Department of State, in accordance with section 3161 of title 5, United States Code, a temporary organization to be known as the Global Engagement Center Coordination Office (GECCO).

(b) The purpose of the GECCO shall be to perform the specific project of providing technical, marketing, management, and operational support to the Center in its efforts to build and maintain a network of partners outside the U.S. Government, including private sector entities and non-governmental organizations, and to develop research and analytics to enable measurement and evaluation of the activities of the Center and related activities conducted by other agencies.

(c) In carrying out the purposes set forth in subsection (b) of this section, the GECCO shall:

(i) provide technical, marketing, management, and operational support for the management of contracts, grants, and cooperative agreements;

(ii) assist the Center in building and maintaining partnerships with private sector entities, non-governmental organizations, and others as appropriate in support of the Center's mission;

(iii) design and develop sustained campaigns, in coordination with and primarily for use by private sector entities and non-governmental organizations, on specific areas of interest to foreign audiences abroad in support of the Center's mission;

(iv) conduct or commission baseline research to establish the basis for evaluation of the activities of the Center and related activities conducted by other agencies;

(v) develop analytical models and metrics, consistent with the Center's responsibilities, in order to enable measurement and evaluation of the activities of the Center in coordinating effective strategies to counter the messaging and diminish the influence of international terrorist organizations and other violent extremists abroad, and related activities conducted by other agencies; and

(vi) perform such other functions related to the specific project set forth in subsection (b) of this section as the Secretary may assign.

(d) The GECCO shall be headed by the Coordinator. Its staff may include, as determined by the Coordinator: (1) personnel with relevant expertise detailed on a non-reimbursable basis from other agencies; (2) senior and other technical advisers; (3) executive-level personnel; and (4) such other personnel as the Secretary may request to support the GECCO. To accomplish this mission, the heads of agencies shall, upon request, provide to the GECCO, on a non-reimbursable basis, assistance, services, and other support including but not limited to logistical and administrative support and details of personnel to the extent permitted by law. Non-reimbursable details to the GECCO shall be based on reasonable requests from the Coordinator in light of the need for specific expertise, and after consultation with the relevant agency, to the extent permitted by law.

(e) The GECCO shall terminate at the end of the maximum period permitted by section 3161(a)(1) of title 5, United States Code, unless sooner terminated by the Secretary consistent with section 3161(a)(2) of such title.

(f) The termination of the GECCO as required by subsection (e) of this section shall not be interpreted to imply the termination, attenuation or amendment of any other authority or provision of this order.

SEC. 7. *General Provisions.* (a) Nothing in this order shall be construed to impair or otherwise affect:

(i) authority granted by law to an agency, or the head thereof; or

(ii) functions of the Director of the Office of Management and Budget relating to budgetary, administrative, or legislative proposals.

(b) This order shall be implemented consistent with applicable law and subject to the availability of appropriations.

(c) This order is not intended to, and does not, create any right or benefit, substantive or procedural, enforceable at law or in equity by any party against the United States, its departments, agencies, or entities, its officers, employees, or agents, or any other person.

BARACK OBAMA.

§ 2656a. Congressional declaration of findings of major significance of modern scientific and technological advances in foreign policy

The Congress finds that—

(1) the consequences of modern scientific and technological advances are of such major significance in United States foreign policy that understanding and appropriate knowledge of modern science and technology by officers and employees of the United States Government are essential in the conduct of modern diplomacy;

(2) many problems and opportunities for development in modern diplomacy lie in scientific and technological fields;

(3) in the formulation, implementation, and evaluation of the technological aspects of United States foreign policy, the United States Government should seek out and consult with both public and private industrial, academic, and research institutions concerned with modern technology; and

(4) the effective use of science and technology in international relations for the mutual benefit of all countries requires the development and use of the skills and methods of long-range planning.

(Pub. L. 95-426, title V, § 501, Oct. 7, 1978, 92 Stat. 982.)

§ 2656b. Congressional declaration of policy regarding consequences of science and technology on conduct of foreign policy

In order to maximize the benefits and to minimize the adverse consequences of science and technology in the conduct of foreign policy, the Congress declares the following to be the policy of the United States:

(1) Technological opportunities, impacts, changes, and threats should be anticipated and assessed, and appropriate measures should be implemented to influence such technological developments in ways beneficial to the United States and other countries.

(2) The mutually beneficial applications of technology in bilateral and multilateral agreements and activities involving the United States and foreign countries or international organizations should be recognized and supported as an important element of United States foreign policy.

(3) The United States Government should implement appropriate measures to insure that individuals are trained in the use of science and technology as an instrument in international relations and that officers and

employees of the United States Government engaged in formal and informal exchanges of scientific and technical information, personnel, and hardware are knowledgeable in international affairs.

(4) In recognition of the environmental and technological factors that change relations among countries and in recognition of the growing interdependence between the domestic and foreign policies and programs of the United States, United States foreign policy should be continually reviewed by the executive and legislative branches of the Government to insure appropriate and timely application of science and technology to the conduct of United States foreign policy.

(5) Federally supported international science and technology agreements should be negotiated to ensure that—

(A) intellectual property rights are properly protected; and

(B) access to research and development opportunities and facilities, and the flow of scientific and technological information, are, to the maximum extent practicable, equitable and reciprocal.

(Pub. L. 95-426, title V, § 502, Oct. 7, 1978, 92 Stat. 982; Pub. L. 100-418, title V, § 5171(a), Aug. 23, 1988, 102 Stat. 1452.)

AMENDMENTS

1988—Par. (5). Pub. L. 100-418 added par. (5).

§ 2656c. Responsibilities of President

(a) Identification, evaluation and initiation of scientific and technological developments

The President, in consultation with the Director of the Office of Science and Technology Policy and other officials whom the President considers appropriate, shall—

(1) notwithstanding any other provision of law, insure that the Secretary of State is informed and consulted before any agency of the United States Government takes any major action, primarily involving science or technology, with respect to any foreign government or international organization;

(2) identify and evaluate elements of major domestic science and technology programs and activities of the United States Government with significant international implications;

(3) identify and evaluate international scientific or technological developments with significant implications for domestic programs and activities of the United States Government; and

(4) assess and initiate appropriate international scientific and technological activities which are based upon domestic scientific and technological activities of the United States Government and which are beneficial to the United States and foreign countries.

(b) **Repealed.** Pub. L. 104-66, title I, § 1111(b), Dec. 21, 1995, 109 Stat. 723

(c) Disclosure of sensitive information

Except as otherwise provided by law, nothing in this section shall be construed as requiring the public disclosure of sensitive information relating to intelligence sources or methods or to

persons engaged in monitoring scientific or technological developments for intelligence purposes.

(d) Availability to United States Trade Representative of information and recommendations

(1) The information and recommendations developed under subsection (b)(3) shall be made available to the United States Trade Representative for use in his consultations with Federal agencies pursuant to Executive orders pertaining to the transfer of science and technology.

(2) In providing such information and recommendations, the President shall utilize information developed by any Federal departments, agencies, or interagency committees as he may consider necessary.

(Pub. L. 95-426, title V, § 503, Oct. 7, 1978, 92 Stat. 983; Pub. L. 100-418, title V, § 5171(b), (c), Aug. 23, 1988, 102 Stat. 1453; Pub. L. 104-66, title I, § 1111(b), Dec. 21, 1995, 109 Stat. 723.)

AMENDMENTS

1995—Subsec. (b). Pub. L. 104-66 struck out subsec. (b) which related to reports to Congress.

1988—Subsec. (b). Pub. L. 100-418, § 5171(b)(1), (2), substituted “the Speaker of the House of Representatives and the Committees on Foreign Relations and Governmental Affairs of the Senate a report containing information and recommendations” for “Congress a report containing recommendations”.

Subsec. (b)(3). Pub. L. 100-418, § 5171(b)(3)–(5), added par. (3).

Subsec. (d). Pub. L. 100-418, § 5171(c), added subsec. (d).

§ 2656d. Responsibilities of Secretary of State

(a) Coordination and oversight over science and technology agreements between United States and foreign countries, etc.

(1) In order to implement the policies set forth in section 2656b of this title, the Secretary of State (hereafter in this section referred to as the “Secretary”) shall have primary responsibility for coordination and oversight with respect to all major science or science and technology agreements and activities between the United States and foreign countries, international organizations, or commissions of which the United States and one or more foreign countries are members.

(2) In coordinating and overseeing such agreements and activities, the Secretary shall consider (A) scientific merit; (B) equity of access as described in section 2656c(b) of this title; (C) possible commercial or trade linkages with the United States which may flow from the agreement or activity; (D) national security concerns; and (E) any other factors deemed appropriate.

(3) Prior to entering into negotiations on such an agreement or activity, the Secretary shall provide Federal agencies which have primary responsibility for, or substantial interest in, the subject matter of the agreement or activity, including those agencies responsible for—

(A) Federal technology management policies set forth by Public Law 96-517 and the Stevenson-Wydler Technology Innovation Act of 1980 [15 U.S.C. 3701 et seq.];

(B) national security policies;

(C) United States trade policies; and
