

water for human consumption if such system has at least 15 service connections or regularly serves at least 25 individuals and a draw and fill system for the provision to the public of water for human consumption. Such term does not include a system owned by a Federal agency. Such term includes (A) any collection, treatment, storage, and distribution facilities under control of the operator of such system and used primarily in connection with such system, and (B) any collection or pre-treatment facilities not under such control that are used primarily in connection with such system.

(Pub. L. 104-182, title IV, §401, Aug. 6, 1996, 110 Stat. 1690.)

CODIFICATION

Section was enacted as part of the Safe Drinking Water Act Amendments of 1996, and not as part of the Public Health Service Act which comprises this chapter.

**§ 300j-3d. Water supply cost savings**

**(a) Drinking water technology clearinghouse**

The Administrator, in consultation with the Secretary of Agriculture, shall—

(1) develop a technology clearinghouse for information on the cost-effectiveness of innovative and alternative drinking water delivery systems, including wells and well systems; and

(2) disseminate such information to the public and to communities and not-for-profit organizations seeking Federal funding for drinking water delivery systems serving 500 or fewer persons.

**(b) Water system assessment**

In any application for a grant or loan for the purpose of construction, replacement, or rehabilitation of a drinking water delivery system serving 500 or fewer persons, the funding for which would come from the Federal Government (either directly or through a State), a unit of local government or not-for-profit organization shall self-certify that the unit of local government or organization has considered, as an alternative drinking water supply, drinking water delivery systems sourced by publicly owned—

- (1) individual wells;
- (2) shared wells; and
- (3) community wells.

**(c) Report to Congress**

Not later than 3 years after December 16, 2016, the Comptroller General of the United States shall submit to Congress a report that describes—

(1) the use of innovative and alternative drinking water delivery systems described in this section;

(2) the range of cost savings for communities using innovative and alternative drinking water delivery systems described in this section; and

(3) the use of drinking water technical assistance programs operated by the Administrator and the Secretary of Agriculture.

(Pub. L. 114-322, title II, §2108, Dec. 16, 2016, 130 Stat. 1728.)

CODIFICATION

Section was enacted as part of the Water and Waste Act of 2016, and also as part of the Water Infrastructure Improvements for the Nation Act, also known as the WIIN Act, and not as part of the Public Health Service Act which comprises this chapter.

DEFINITION OF “ADMINISTRATOR”

Pub. L. 114-322, title II, §2002, Dec. 16, 2016, 130 Stat. 1716, provided that: “In this title [see section 2001 of Pub. L. 114-322, set out as a Short Title of 2016 Amendment note under section 201 of this title], the term ‘Administrator’ means the Administrator of the Environmental Protection Agency.”

**§ 300j-4. Records and inspections**

**(a) Provision of information to Administrator; monitoring program for unregulated contaminants**

(1)(A) Every person who is subject to any requirement of this subchapter or who is a grantee, shall establish and maintain such records, make such reports, conduct such monitoring, and provide such information as the Administrator may reasonably require by regulation to assist the Administrator in establishing regulations under this subchapter, in determining whether such person has acted or is acting in compliance with this subchapter, in administering any program of financial assistance under this subchapter, in evaluating the health risks of unregulated contaminants, or in advising the public of such risks. In requiring a public water system to monitor under this subsection, the Administrator may take into consideration the system size and the contaminants likely to be found in the system’s drinking water.

(B) Every person who is subject to a national primary drinking water regulation under section 300g-1 of this title shall provide such information as the Administrator may reasonably require, after consultation with the State in which such person is located if such State has primary enforcement responsibility for public water systems, on a case-by-case basis, to determine whether such person has acted or is acting in compliance with this subchapter.

(C) Every person who is subject to a national primary drinking water regulation under section 300g-1 of this title shall provide such information as the Administrator may reasonably require to assist the Administrator in establishing regulations under section 300g-1 of this title, after consultation with States and suppliers of water. The Administrator may not require under this subparagraph the installation of treatment equipment or process changes, the testing of treatment technology, or the analysis or processing of monitoring samples, except where the Administrator provides the funding for such activities. Before exercising this authority, the Administrator shall first seek to obtain the information by voluntary submission.

(D) The Administrator shall not later than 2 years after August 6, 1996, after consultation with public health experts, representatives of the general public, and officials of State and local governments, review the monitoring requirements for not fewer than 12 contaminants identified by the Administrator, and promulgate any necessary modifications.
