OTHER RESERVOIRS

Pub. L. 97-140, § 5, Dec. 29, 1981, 95 Stat. 1717, provided that:

“(a) The proviso of section 2 of Public Law 84-485 [this section] shall not be construed to prohibit the storage of San Juan-Chama project water acquired by contract with the Secretary of the Interior pursuant to Public Law 87-483 [section 615i et seq. of this title] in any reservoir, including the storage of water for recreation and other beneficial purposes by any party contracting with the Secretary for project water.

“(b) The Secretary of the Army, acting through the Chief of Engineers, is authorized to enter into agreements with entities which have contracted with the Secretary of the Interior for water from the San Juan-Chama project pursuant to Public Law 87-483 for storage of a total of two hundred thousand acre-feet of such water in Abiquiu Reservoir. The Secretary of the Interior is hereby authorized to release San Juan-Chama project water to contracting entities for such storage. The agreements to thus store San Juan-Chama project water shall not interfere with the authorized purposes of the Abiquiu Dam and Reservoir project and shall include a requirement that each user of storage space shall pay any increase in operation and maintenance costs attributable to the storage of that user’s water.

“(c) The Secretary of the Interior is authorized to enter into agreements with entities which have contracted with the Secretary of the Interior for water from the San Juan-Chama project pursuant to Public Law 87-483 for storage of such water in Elephant Butte Reservoir. The Secretary of the Interior is hereby authorized to release San Juan-Chama project water to contracting entities for such storage. Any increase in operation and maintenance costs resulting from such storage not offset by increased power revenues resulting from that storage shall be paid proportionately by the entities for which the San Juan-Chama project water is stored.

“(d) The amount of evaporation loss and spill chargeable to San Juan-Chama project water stored pursuant to subsections (b) and (c) of this section shall be accounted as required by the Rio Grande compact and the procedures established by the Rio Grande Compact Commission.”
