REFERENCES IN TEXT

The Comprehensive Environmental Response, Compensation, and Liability Act, referred to in subsec. (b)(7), probably means the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, Pub. L. 96-510, Dec. 11, 1980, 94 Stat. 2767, as amended, which is classified principally to chapter 103 (§9601 et seq.) of Title 42, The Public Health and Welfare. For complete classification of this Act to the Code, see Short Title note set out under section 9601 of Title 42 and Tables.

PRIOR PROVISIONS

Prior provisions on the subject of reverter were formerly contained in section 869 of this title. See 1954 Amendment note set out under that section. Those prior provisions permanently restricted the lands conveyed to a single use, and did not provide, as in this section, for transfer by the original grantee or its successor.

AMENDMENTS

1988—Pub. L. 100-648 designated existing provision as subsec. (a) and added subssecs. (b) and (c).

1959—Pub. L. 86-292 struck out sentence which provided that this section should cease to be in effect as to any lands patented under sections 869 to 869-4 of this title twenty-five years after the issuance of patent for such lands.

SAVINGS PROVISIONS

Pub. L. 100-648, § 3, Nov. 10, 1988, 102 Stat. 3815, provided that: "Nothing in this Act [amending section 869-2 of this title and enacting provisions set out as notes under sections 869 and 869-2 of this title] or the amendments made thereby shall be construed to affect the applicability and operation of the Comprehensive Environmental Response, Compensation[,] and Liability Act [of 1980] (42 U.S.C. 9601 et seq.) as amended, and the Resource Conservation and Recovery Act of 1976 (42 U.S.C. 6901 et seq.), as amended."

CONGRESSIONAL REVIEW OF CONVEYANCE OF LAND OR RENUNCIATION OF REVERSIONARY INTERESTS

Pub. L. 100-648, § 4, Nov. 10, 1988, 102 Stat. 3815, provided that:

"(a) The Secretary shall not make any conveyance of land or renunciation of reversionary interests under this Act [amending section 869-2 of this title and enacting provisions set out as notes under sections 869 and 869-2 of this title] until he has published in the Federal Register regulations implementing this Act and until sixty days (not counting days on which the House of Representatives or the Senate has adjourned for more than three days) after these regulations have been submitted to the Committee on Energy and Natural Resources of the Senate and the Committee on Interior and Insular Affairs of the House of Representatives. [Implementing regulations were published in the Federal Register July 23, 1992, 57 F.R. 32730.]

"(b) During the first three years after enactment of this Act [Nov. 10, 1988] the Secretary shall not make any conveyance of land or renunciation of reversionary interests under this Act until thirty days (not counting days on which the House of Representatives or the Senate has adjourned for more than three days) after notice of intention to do so has been submitted to the Committee on Energy and Natural Resources of the Senate and the Committee on Interior and Insular Affairs of the House of Representatives."

§ 869-3. Authority for transfers; applicability of section 869-2 to prior patents; termination of restrictions

The Secretary may authorize transfers of title or changes in use in accordance with the provi-

sions of section 869-2 of this title with respect to any patent heretofore issued under any Act upon application by a patentee qualified to obtain a conveyance under section 869-1(a) or 869-1(c) of this title. If the Secretary, pursuant to such an application, authorizes such transfer or use, all reverter provisions and other limitations on transfer or use, under sections 869 to 869-4 of this title or any other Act affecting the lands involved, shall cease to be in effect twenty-five years after the Secretary authorizes the transfer or use for a changed or additional purpose under the provisions of this section.

§ 870. Grants of land in aid of common or public schools; extension to those mineral in character; effect of leases

Subject to the provisions of subsections (a), (b), and (c) of this section, the several grants to the States of numbered sections in place for the support or in aid of common or public schools be, and they are, extended to embrace numbered school sections mineral in character, unless land has been granted to and/or selected by and certified or approved, to any such State or States as indemnity or in lieu of any land so granted by numbered sections.

(a) The grant of numbered mineral sections under this section shall be of the same effect as prior grants for the numbered nonmineral sections, and titles to such numbered mineral sections shall vest in the States at the time and in the manner and be subject to all the rights of adverse parties recognized by existing law in the grants of numbered nonmineral sections.

(b) The additional grant made by this section is upon the express condition that all sales, grants, deeds, or patents for any of the lands so granted shall hereafter be subject to and contain a reservation to the State of all the coal and other minerals in the lands so sold, granted, deeded, or patented, together with the right to prospect for, mine, and remove the same. The

coal and other mineral deposits in such lands not heretofore disposed of by the State shall be subject to lease by the State as the State legislature may direct, the proceeds and rentals and royalties therefrom to be utilized for the support or in aid of the common or public schools: *Provided*, That any lands or minerals hereafter disposed of contrary to the provisions of this section shall be forfeited to the United States by appropriate proceedings instituted by the Attorney General for that purpose in the United States district court for the district in which the property or some part thereof is located.

(c) Except as provided in subsection (d), any lands included within the limits of existing reservations of or by the United States, or specifically reserved for water-power purposes, or included in any pending suit or proceeding in the courts of the United States, or subject to or included in any valid application, claim, or right initiated or held under any of the existing laws of the United States, unless or until such reservation, application, claim, or right is extinguished, relinquished, or canceled, and all lands in the Territory of Alaska, are excluded from the provisions of this section.

(d)(1) Notwithstanding subsection (c), the fact that there is outstanding on any numbered school section, whether or not mineral in character, at the time of its survey a mineral lease or leases entered into by the United States, or an application therefor, shall not prevent the grant of such numbered school section to the State concerned as provided by this section and section 871 of this title.

(2) Any such numbered school section which has been surveyed prior to July 11, 1956, and which has not been granted to the State concerned solely by reason of the fact that there was outstanding on it at the time of the survey a mineral lease or leases entered into by the United States, or an application therefor, is hereby granted by the United States to such State under this section as if it had not been so leased; and the State shall succeed the position of the United States as lessor under such lease or leases.

(3) Any such numbered school section which is surveyed on or after July 11, 1956, and on which there is outstanding at the time of such survey a mineral lease or leases entered into by the United States, shall (unless excluded from the provisions of this section by subsection (c) for a reason other than the existence of an outstanding lease) be granted to the State concerned immediately upon completion of such survey; and the State shall succeed to the position of the United States as lessor under such lease or leases.

(4) The Secretary of the Interior shall, upon application by a State, issue patents to the State for the lands granted by this section and section 871 of this title, in accordance with section 871a¹ of this title. Such patent shall, if the lease is then outstanding, include a statement that the State succeeded to the position of the United States as lessor at the time the title vested in the State.

(5) Where at the time rents, royalties, and bonuses accrue the lands or deposits covered by a

single lease are owned in part by the State and in part by the United States, the rents, royalties, and bonuses shall be allocated between them in proportion to the acreage in said lease owned by each.

(6) As used in this subsection, "lease" includes "permit" and "lessor" includes "grantor".
