Section 3711 prohibits any foreign vessel from operating on the navigable waters of the United States or from transferring oil or hazardous material in any port or place under the jurisdiction of the United States, unless it has a certificate of compliance issued by the Secretary indicating that the vessel has been examined and found to be in compliance with the provisions of the applicable regulations. It also authorizes the Secretary to accept, in whole or in part, an appropriate foreign certificate issued pursuant to any international agreement to which the United States is a party, as a basis for issuing the certificate of compliance. This means that the Secretary does not have to accept foreign certificates as evidence of compliance, but may take additional action to assure compliance with applicable domestic laws and regulations and international treaty provisions.

§ 3712. Notification of noncompliance

The Secretary shall notify the owner, charterer, managing operator, agent, master, or individual in charge of a vessel found not to be in compliance with a regulation prescribed under this part and state how compliance may be achieved.
