§ 3292a. United States-Mexico joint agricultural research

(a) Research and development program

The Secretary may provide for an agricultural research and development program with the George E. Brown United States/Mexico Foundation for Science. The program shall focus on binational problems facing agricultural producers and consumers in the 2 countries, in particular pressing problems in the areas of food safety, plant and animal pest control, and the natural resources base on which agriculture depends.

(b) Administration

Grants under the research and development program shall be awarded competitively through the Foundation.

(c) Matching requirements

The provision of funds to the Foundation by the United States Government shall be subject to the condition that the Government of Mexico match, on at least a dollar-for-dollar basis, any funds provided by the United States Government.

(d) Limitation on use of funds

Funds provided under this section may not be used for the planning, repair, rehabilitation, ac-

quisition, or construction of a building or facility.

CHANGE OF NAME

“George E. Brown United States/Mexico Foundation for Science” substituted in subsec. (a) for “United States/Mexico Foundation for Science” pursuant to section 423 of Pub. L. 106-74, set out below.

Pub. L. 106-74, title IV, §423, Oct. 20, 1999, 113 Stat. 1095, provided in part: “That the United States/Mexico Foundation for Science is renamed the ‘George E. Brown United States/Mexico Foundation for Science’.”

§ 3292b. Competitive grants for international agricultural science and education programs

(a) Competitive grants authorized

The Secretary may make competitive grants to colleges and universities in order to strengthen United States economic competitiveness and to promote international market development.

(b) Purpose of grants

Grants under this section shall be directed to agricultural research, extension, and teaching activities that will—

(1) enhance the international content of the curricula in colleges and universities so as to ensure that United States students acquire an understanding of the international dimensions and trade implications of their studies;

(2) ensure that United States scientists, extension agents, and educators involved in agricultural research and development activities outside of the United States have the opportunity to convey the implications of their activities and findings to their peers and students in the United States and to the users of agricultural research, extension, and teaching;

(3) enhance the capabilities of colleges and universities to do collaborative research with other countries, in cooperation with other Federal agencies, on issues relevant to United States agricultural competitiveness;

(4) enhance the capabilities of colleges and universities to provide cooperative extension education to promote the application of new technology developed in foreign countries to United States agriculture; and

(5) enhance the capability of United States colleges and universities, in cooperation with other Federal agencies, to provide leadership and educational programs that will assist United States natural resources and food production, processing, and distribution businesses and industries to compete internationally, including product market identification, international policies limiting or enhancing market production, development of new or enhancement of existing markets, and production efficiencies.

(c) Authorization of appropriations

There are authorized to be appropriated to carry out this section—
