

state off-track betting, the terms and conditions of said then-existing contract shall be deemed to apply to the interstate off-track wagers and no additional written agreement need be entered into unless the parties to such then-existing contract agree otherwise. Where such provisions exist in such existing contract, such contract shall govern. Where written consents exist at the time of enactment of this chapter between an off-track betting system and the host racing association providing for interstate off-track wagers, or such written consents are executed by these parties prior to the expiration of such then-existing contract, upon the expiration of such then-existing contract the written agreement of such horsemen's group shall thereafter be required as such condition precedent and as a part of the regular contractual process, and may not be withdrawn or varied except in the regular contractual process. Where no such written consent exists, and where such written agreement occurs at a racing association which has a regular contractual process with such horsemen's group, said agreement by the horsemen's group may not be withdrawn or varied except in the regular contractual process;

- (2) the host racing commission;
- (3) the off-track racing commission.

(b) Approval of tracks as prerequisite to acceptance of wager; exceptions

(1) In addition to the requirement of subsection (a), any off-track betting office shall obtain the approval of—

- (A) all currently operating tracks within 60 miles of such off-track betting office; and
- (B) if there are no currently operating tracks within 60 miles then the closest currently operating track in an adjoining State.

(2) Notwithstanding the provisions of paragraph (1) of this subsection, any off-track betting office in a State with at least 250 days of on-track parimutuel horseracing a year, may accept interstate off-track wagers for a total of 60 racing days and 25 special events a year without the approval required by paragraph (1), if with respect to such 60 racing days, there is no racing of the same type at the same time of day being conducted within the off-track betting State within 60 miles of the off-track betting office accepting the wager, or such racing program cannot be completed. Excluded from such 60 days and from the consent required by subsection (b)(1) may be dark days which occur during a regularly scheduled race meeting in said off-track betting State. In order to accept any interstate off-track wager under the terms of the preceding sentence the off-track betting office shall make identical offers to any racing association described in subparagraph (A) of subsection (b)(1). Nothing in this subparagraph shall be construed to reduce or eliminate the necessity of obtaining all the approvals required by subsection (a).

(c) Takeout amount

No parimutuel off-track betting system may employ a takeout for an interstate wager which

is greater than the takeout for corresponding wagering pools of off-track wagers on races run within the off-track State except where such greater takeout is authorized by State law in the off-track State.

§ 3005. Liability and damages

Any person accepting any interstate off-track wager in violation of this chapter shall be civilly liable for damages to the host State, the host racing association and the horsemen's group. Damages for each violation shall be based on the total of off-track wagers as follows:

(1) If the interstate off-track wager was of a type accepted at the host racing association, damages shall be in an amount equal to that portion of the takeout which would have been distributed to the host State, host racing association and the horsemen's group, as if each such interstate off-track wager had been placed at the host racing association.

(2) If such interstate off-track wager was of a type not accepted at the host racing association, the amount of damages shall be determined at the rate of takeout prevailing at the off-track betting system for that type of wager and shall be distributed according to the same formulas as in paragraph (1) above.

(Pub. L. 95-515, § 6, Oct. 25, 1978, 92 Stat. 1814.)

§ 3006. Civil action

(a) Parties; remedies

The host State, the host racing association, or the horsemen's group may commence a civil action against any person alleged to be in violation of this chapter, for injunctive relief to restrain violations and for damages in accordance with section 3005 of this title.

(b) Intervention

In any civil action under this section, the host State, the host racing association and horsemen's group, if not a party, shall be permitted to intervene as a matter of right.

(c) Limitations

A civil action may not be commenced pursuant to this section more than 3 years after the discovery of the alleged violation upon which such civil action is based.

(d) State as defendant

Nothing in this chapter shall be construed to permit a State to be sued under this section other than in accordance with its applicable laws.

(Pub. L. 95-515, § 7, Oct. 25, 1978, 92 Stat. 1814.)

§ 3007. Jurisdiction and venue

(a) District court jurisdiction

Notwithstanding any other provision of law, the district courts of the United States shall have jurisdiction over any civil action under this chapter, without regard to the citizenship of the parties or the amount in controversy.

(b) Venue; service of process

A civil action under this chapter may be brought in any district court of the United

States for a district located in the host State or the off-track State, and all process in any such civil action may be served in any judicial district of the United States.

(c) Concurrent State court jurisdiction

The jurisdiction of the district courts of the United States pursuant to this section shall be concurrent with that of any State court of competent jurisdiction located in the host State or the off-track State.

SUBCHAPTER III—GENERAL PROVISIONS

§ 3101. Congressional findings

(a) The Congress finds that the Nation has suffered substantial unemployment and underemployment, idleness of other productive resources, high rates of inflation, and inadequate productivity growth, over prolonged periods of time, imposing numerous economic and social costs on the Nation. Such costs include the following:

(1) The Nation is deprived of the full supply of goods and services, the full utilization of labor and capital resources, and the related increases in economic well-being that would occur under conditions of genuine full employment, production, and real income, balanced growth, a balanced Federal budget, and the effective control of inflation.

(2) The output of goods and services is insufficient to meet pressing national priorities.

(3) Workers are deprived of the job security, income, skill development, and productivity necessary to maintain and advance their standards of living.

(4) Business and industry are deprived of the production, sales, capital flow, and productivity necessary to maintain adequate profits, undertake new investment, create jobs, compete internationally, and contribute to meeting society's economic needs. These problems are especially acute for smaller businesses.

Variations in the business cycle and low-level operations of the economy are far more damaging to smaller businesses than to larger business concerns because smaller businesses have fewer available resources, and less access to resources, to withstand nationwide economic adversity. A decline in small business enterprises contributes to unemployment by reducing employment opportunities and contributes to inflation by reducing competition.

(5) Unemployment exposes many families to social, psychological, and physiological costs, including disruption of family life, loss of individual dignity and self-respect, and the aggravation of physical and psychological illnesses, alcoholism and drug abuse, crime, and social conflicts.

(6) Federal, State, and local government budgets are undermined by deficits due to shortfalls in tax revenues and in increases in expenditures for unemployment compensation, public assistance, and other recession-related services in the areas of criminal justice, alcoholism and drug abuse, and physical and mental health.

(b) The Congress further finds that:

(1) High unemployment may contribute to inflation by diminishing labor training and skills, underutilizing capital resources, reducing the rate of productivity advance, increasing unit labor costs, and reducing the general supply of goods and services.

(2) Aggregate monetary and fiscal policies alone have been unable to achieve full employment and production, increased real income, balanced growth, a balanced Federal budget, adequate productivity growth, proper attention to national priorities, achievement of an improved trade balance, and reasonable price stability, and therefore must be supplemented by other measures designed to serve these ends.

(3) Attainment of these objectives should be facilitated by setting explicit short-term and medium-term economic goals, and by improved coordination among the President, the Congress, and the Board of Governors of the Federal Reserve System.

(4) Increasing job opportunities and full employment would greatly contribute to the elimination of discrimination based upon sex, age, race, color, religion, national origin, handicap, or other improper factors.

(c) The Congress further finds that an effective policy to promote full employment and production, increased real income, balanced growth, a balanced Federal budget, adequate productivity growth, proper attention to national priorities, achievement of an improved trade balance, and reasonable price stability should (1) be based on the development of explicit economic goals and policies involving the President, the Congress, and the Board of Governors of the Federal Reserve System, with maximum reliance on the resources and ingenuity of the private sector of the economy, (2) include programs specifically designed to reduce high unemployment due to recessions, and to reduce structural unemployment within regional areas and among particular labor force groups, and (3) give proper atten-
