

§ 824I. Information requirements**(a) Requests for wholesale transmission services**

Whenever any electric utility, Federal power marketing agency, or any other person generating electric energy for sale for resale makes a good faith request to a transmitting utility to provide wholesale transmission services and requests specific rates and charges, and other terms and conditions, unless the transmitting utility agrees to provide such services at rates, charges, terms and conditions acceptable to such person, the transmitting utility shall, within 60 days of its receipt of the request, or other mutually agreed upon period, provide such person with a detailed written explanation, with specific reference to the facts and circumstances of the request, stating (1) the transmitting utility's basis for the proposed rates, charges, terms, and conditions for such services, and (2) its analysis of any physical or other constraints affecting the provision of such services.

(b) Transmission capacity and constraints

Not later than 1 year after October 24, 1992, the Commission shall promulgate a rule requiring that information be submitted annually to the Commission by transmitting utilities which is adequate to inform potential transmission customers, State regulatory authorities, and the public of potentially available transmission capacity and known constraints.

(June 10, 1920, ch. 285, pt. II, §213, as added Pub. L. 102-486, title VII, §723, Oct. 24, 1992, 106 Stat. 2919.)

STATE AUTHORITIES; CONSTRUCTION

Nothing in this section to be construed as affecting or intending to affect, or in any way to interfere with, authority of any State or local government relating to environmental protection or siting of facilities, see section 731 of Pub. L. 102-486, set out as a note under section 796 of this title.

§ 824m. Sales by exempt wholesale generators

No rate or charge received by an exempt wholesale generator for the sale of electric energy shall be lawful under section 824d of this title if, after notice and opportunity for hearing, the Commission finds that such rate or charge results from the receipt of any undue preference or advantage from an electric utility which is an associate company or an affiliate of the exempt wholesale generator. For purposes of this section, the terms "associate company" and "affiliate" shall have the same meaning as provided in section 16451 of title 42.¹

(June 10, 1920, ch. 285, pt. II, §214, as added Pub. L. 102-486, title VII, §724, Oct. 24, 1992, 106 Stat. 2920; amended Pub. L. 109-58, title XII, §1277(b)(2), Aug. 8, 2005, 119 Stat. 978.)

REFERENCES IN TEXT

Section 16451 of title 42, referred to in text, was in the original "section 2(a) of the Public Utility Holding Company Act of 2005" and was translated as reading "section 1262" of that Act, meaning section 1262 of subtitle F of title XII of Pub. L. 109-58, to reflect the probable intent of Congress, because subtitle F of title XII

¹ See References in Text note below.

of Pub. L. 109-58 does not contain a section 2 and section 1262 of subtitle F of title XII of Pub. L. 109-58 defines terms.

AMENDMENTS

2005—Pub. L. 109-58 substituted "section 16451 of title 42" for "section 79b(a) of title 15".

EFFECTIVE DATE OF 2005 AMENDMENT

Amendment by Pub. L. 109-58 effective 6 months after Aug. 8, 2005, with provisions relating to effect of compliance with certain regulations approved and made effective prior to such date, see section 1274 of Pub. L. 109-58, set out as an Effective Date note under section 16451 of Title 42, The Public Health and Welfare.

STATE AUTHORITIES; CONSTRUCTION

Nothing in this section to be construed as affecting or intending to affect, or in any way to interfere with, authority of any State or local government relating to environmental protection or siting of facilities, see section 731 of Pub. L. 102-486, set out as a note under section 796 of this title.

§ 824n. Repealed. Pub. L. 109-58, title XII, § 1232(e)(3), Aug. 8, 2005, 119 Stat. 957

Section, Pub. L. 106-377, §1(a)(2) [title III, §311], Oct. 27, 2000, 114 Stat. 1441, 1441A-80, related to authority regarding formation and operation of regional transmission organizations.

§ 824o. Electric reliability**(a) Definitions**

For purposes of this section:

(1) The term "bulk-power system" means—

(A) facilities and control systems necessary for operating an interconnected electric energy transmission network (or any portion thereof); and

(B) electric energy from generation facilities needed to maintain transmission system reliability.

The term does not include facilities used in the local distribution of electric energy.

(2) The terms "Electric Reliability Organization" and "ERO" mean the organization certified by the Commission under subsection (c) the purpose of which is to establish and enforce reliability standards for the bulk-power system, subject to Commission review.

(3) The term "reliability standard" means a requirement, approved by the Commission under this section, to provide for reliable operation of the bulk-power system. The term includes requirements for the operation of existing bulk-power system facilities, including cybersecurity protection, and the design of planned additions or modifications to such facilities to the extent necessary to provide for reliable operation of the bulk-power system, but the term does not include any requirement to enlarge such facilities or to construct new transmission capacity or generation capacity.

(4) The term "reliable operation" means operating the elements of the bulk-power system within equipment and electric system thermal, voltage, and stability limits so that instability, uncontrolled separation, or cascading failures of such system will not occur as a result of a sudden disturbance, including a cybersecurity incident, or unanticipated failure of system elements.
