

pected on the map entitled 'Official Map, Boundary Modification, Chugach National Forest' and dated September 1988. The map shall be on file and available for public inspection in the Office of the Chief of the Forest Service, Department of Agriculture.

“(b) ADMINISTRATION.—Subject to valid existing rights, all Federal lands brought within the boundary of the Chugach National Forest by subsection (a) are added to and shall be administered as part of the Chugach National Forest.

“(c) TERMS AND CONDITIONS.—(1) Nothing in this Act [see Short Title of 1992 Amendment note set out under section 1601 of Title 43, Public Lands] shall be construed to affect the validity of, or the terms and conditions of, any right-of-way, easement, lease, license, or permit on lands transferred by this section that is in existence on the date of enactment of this Act [Oct. 14, 1992].

“(2) Notwithstanding any other provision of law, the Secretary of the Interior shall delegate, as necessary, to the Secretary of Agriculture the authority to renew or reissue the authorizations described in paragraph (1). The change of administrative jurisdiction over these lands resulting from subsection (a) shall not constitute a ground for the denial of renewal or reissuance of the authorizations described in paragraph (1).

“(d) LAND AND WATER CONSERVATION FUND ACT.—For purposes of section 100506 of title 54, United States Code, the boundary of the Chugach National Forest, as modified by this section, shall be treated as if it were the boundary of the Chugach National Forest as of January 1, 1965.”

#### **§ 539a. Mining and mineral leasing on certain national forest lands**

Subject to valid existing rights, the minerals in public lands within the Copper River addition to the Chugach National Forest, are hereby withdrawn from location, entry, and patent under the United States mining laws. With respect to such areas, the Secretary, under such reasonable regulations as he deems appropriate, may permit the removal of nonleasable minerals from the lands in the manner prescribed by Reorganization Plan Numbered 3 of 1946 and section 520 of this title, and the removal of leasable minerals from such lands in accordance with the mineral leasing laws, if the Secretary finds that such disposition would not have significant adverse effects on the administration of the area. All receipts derived from disposal of nonleasable minerals under this section shall be paid into the same funds or accounts in the Treasury of the United States and shall be distributed in the same manner as provided for receipts from national forests.

(Pub. L. 96-487, title V, §502, Dec. 2, 1980, 94 Stat. 2399.)

#### REFERENCES IN TEXT

Reorganization Plan Numbered 3 of 1946, referred to in text, is Reorg. Plan No. 3 of 1946, July 16, 1946, 11 F.R. 7875, 60 Stat. 1097, which is set out in the Appendix to Title 5, Government Organization and Employees.

#### **§ 539b. Fisheries on national forest lands in Alaska**

##### **(a) Regulations for protection and maintenance of habitats**

The Secretary of Agriculture shall, in consultation with the Secretaries of Commerce and the Interior, and with the State of Alaska, pursuant to his existing authority to manage surface resources, promulgate such reasonable reg-

ulations as he determines necessary after consideration of existing laws and regulations to maintain the habitats, to the maximum extent feasible, of anadromous fish and other foodfish, and to maintain the present and continued productivity of such habitat when such habitats are affected by mining activities on national forest lands in Alaska. The Secretary of Agriculture, in consultation with the State, shall assess the effects on the populations of such fish in determinations made pursuant to this subsection.

##### **(b) Approved plan for mining operations; requirements; review; modification; suspension of activities**

Because of the large scale of contemplated mining operations and the proximity of such operations to important fishery resources, with respect to mining operations in the Quartz Hill area of the Tongass National Forest, the regulations of the Secretary shall, pursuant to this subsection, include a requirement that all mining operations involving significant surface disturbance shall be in accordance with an approved plan of operations. Before approving any proposed plan or distinct stages of such plan of operations for any such claims when any fishery habitat or fishery value may be affected, the Secretary shall, in consultation with the Secretaries of Commerce and the Interior and the State of Alaska, determine—

(1) that such plan or stages of such plan are based upon and shall include studies or information which he determines are adequate for—

(A) evaluating the water quality and water quantity, fishery habitat, and other fishery values of the affected area; and

(B) evaluating to the maximum extent feasible and relevant, the sensitivity to environmental degradation from activities carried out under such plan of the fishery habitat as it affects the various life stages of anadromous fish and other foodfish and their major food chain components;

(2) that such plan adequately identifies the risks the operations under such plan or such stages might pose to and the benefits the operations under such plan might provide to—

(A) the natural stability and the present and continued productivity of anadromous fish and other foodfish;

(B) fishery habitat, including but not limited to water quality and water quantity; and

(C) other fishery values;

(3) that such plan includes provisions which he determines are adequate for the purposes of—

(A) preventing significant adverse environmental impacts to the fishery habitat (including but not limited to water quality and water quantity) or other fishery values; and

(B) maintaining present and continued productivity of the habitat of anadromous fish and other foodfish which might be affected by the mining and other activities proposed to be conducted in accordance with such plan or such stages of the plan of operations;
