

Secretary to the Congress under that section for the fiscal year, exceeded the sum of the amounts appropriated for the fiscal year under the authorization contained in section 1601(d)(3) of this title and under any other provision of law to carry out the same purpose; and such sums as were determined by the Secretary of Agriculture to be properly allocable to administrative costs of the Federal Government incurred for the fiscal year in connection with the reforestation program carried out under this chapter.

Subsec. (e). Pub. L. 97-424, § 422(a), substituted provision that it is the intent of Congress that the Secretary expend all of the funds available in the Trust Fund in each fiscal year and that any such funds which are not expended in a given fiscal year remain available for expenditure without fiscal year limitation; except that any funds not expended prior to Oct. 1, 1985, shall, no later than Apr. 30, 1986, be distributed to the States for use in State forestry programs pursuant to the formula set forth in section 500 of this title for provision that the Secretary of the Treasury pay into the general fund of the Treasury any amounts, including interest earned on such amounts, remaining in the Trust Fund after Sept. 30, 1985, which were not expended and remained in the Trust Fund.

#### EFFECTIVE DATE OF 1988 AMENDMENT

Amendment by Pub. L. 100-418 effective Jan. 1, 1989, and applicable with respect to articles entered on or after such date, see section 1217(b)(1) of Pub. L. 100-418, set out as an Effective Date note under section 3001 of Title 19, Customs Duties.

#### TERMINATION OF REPORTING REQUIREMENTS

For termination, effective May 15, 2000, of provisions in subsec. (c)(1) of this section relating to reporting to Congress each year, see section 3003 of Pub. L. 104-66, as amended, set out as a note under section 1113 of Title 31, Money and Finance, and page 143 of House Document No. 103-7.

### **§ 1607. National Forest System renewable resources; development and administration by Secretary of Agriculture in accordance with multiple use and sustained yield concepts for products and services; target year for operational posture of resources; budget requests**

The Secretary of Agriculture shall take such action as will assure that the development and administration of the renewable resources of the National Forest System are in full accord with the concepts for multiple use and sustained yield of products and services as set forth in the Multiple-Use Sustained-Yield Act of 1960 [16 U.S.C. 528-531]. To further these concepts, the Congress hereby sets the year 2000 as the target year when the renewable resources of the National Forest System shall be in an operating posture whereby all backlogs of needed treatment for their restoration shall be reduced to a current basis and the major portion of planned intensive multiple-use sustained-yield management procedures shall be installed and operating on an environmentally-sound basis. The annual budget shall contain requests for funds for an orderly program to eliminate such backlogs: *Provided*, That when the Secretary finds that (1) the backlog of areas that will benefit by such treatment has been eliminated, (2) the cost of treating the remainder of such area exceeds the economic and environmental benefits to be secured from their treatment, or (3) the total supplies of the renewable resources of the United States are adequate to meet the future needs of the American people, the budget request for these ele-

ments of restoration may be adjusted accordingly.

(Pub. L. 93-378, § 9, formerly § 8, Aug. 17, 1974, 88 Stat. 479, renumbered § 9, Pub. L. 94-588, § 2, Oct. 22, 1976, 90 Stat. 2949.)

#### REFERENCES IN TEXT

The Multiple-Use Sustained-Yield Act of 1960, referred to in text, is Pub. L. 86-517, June 12, 1960, 74 Stat. 215, as amended, which is classified generally to sections 528 to 531 of this title. For complete classification of this Act to the Code, see Short Title note set out under section 528 of this title and Tables.

#### TRANSFER OF FUNCTIONS

For transfer of certain enforcement functions of Secretary or other official in Department of Agriculture under this subchapter to Federal Inspector, Office of Federal Inspector for Alaska Natural Gas Transportation System, and subsequent transfer to Secretary of Energy, then to Federal Coordinator for Alaska Natural Gas Transportation Projects, see note set out under section 1601 of this title.

### **§ 1608. National Forest Transportation System**

#### **(a) Congressional declaration of policy; time for development; method of financing; financing of forest development roads**

The Congress declares that the installation of a proper system of transportation to service the National Forest System, as is provided for in sections 532 to 538 of this title, shall be carried forward in time to meet anticipated needs on an economical and environmentally sound basis, and the method chosen for financing the construction and maintenance of the transportation system should be such as to enhance local, regional, and national benefits: *Provided*, That limitations on the level of obligations for construction of forest roads by timber purchasers shall be established in annual appropriation Acts.

#### **(b) Construction of temporary roadways in connection with timber contracts, and other permits or leases**

Unless the necessity for a permanent road is set forth in the forest development road system plan, any road constructed on land of the National Forest System in connection with a timber contract or other permit or lease shall be designed with the goal of reestablishing vegetative cover on the roadway and areas where the vegetative cover has been disturbed by the construction of the road, within ten years after the termination of the contract, permit, or lease either through artificial or natural means. Such action shall be taken unless it is later determined that the road is needed for use as a part of the National Forest Transportation System.

#### **(c) Standards of roadway construction**

Roads constructed on National Forest System lands shall be designed to standards appropriate for the intended uses, considering safety, cost of transportation, and impacts on land and resources.
