

§ 6235. Deposit and expenditure of use fees**(a) Deposit and availability**

Unless subject to section 580d of this title, use fees collected by the Secretary under this chapter shall be deposited in a special account in the Treasury and shall remain available to the Secretary for expenditure, without further appropriation until expended, for the purposes described in subsection (c).

(b) Transfer

Upon request of the Secretary, the Secretary of the Treasury shall transfer to the Secretary from the special account such amounts as the Secretary may request. The Secretary shall accept and use such amounts in accordance with subsection (c).

(c) Use

Use fees deposited pursuant to subsection (a) and transferred to the Secretary under subsection (b) shall be expended for monitoring of Forest Service special use authorizations, administration of the Forest Service's special program, interpretive programs, environmental analysis, environmental restoration, and similar purposes.

(Pub. L. 108-7, div. F, title V, §506, Feb. 20, 2003, 117 Stat. 297.)

REFERENCES IN TEXT

This chapter, referred to in subsec. (a), was in the original "this Act", which was translated as reading "this title", meaning title V of div. F of Pub. L. 108-7, known as the National Forest Organizational Camp Fee Improvement Act of 2003, to reflect the probable intent of Congress.

§ 6236. Ministerial issuance, or amendment authorization**(a) NEPA exception**

The ministerial issuance or amendment of an organizational camp special use authorization shall not be subject to the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.).

(b) Rule of construction

For purposes of subsection (a), the ministerial issuance or amendment of an authorization occurs only when the issuance or amendment of the authorization would not change the physical environment or the activities, facilities, or program of the operations governed by the authorization, and at least one of the following apply:

(1) The authorization is issued upon a change in control of the holder of an existing authorization.

(2) The holder, upon expiration of an authorization, is issued a new authorization.

(3) The authorization is amended—

(A) to effectuate administrative changes, such as modification of the land use fee or conversion to a new special use authorization form; or

(B) to include nondiscretionary environmental standards or to conform with current law.

(Pub. L. 108-7, div. F, title V, §507, Feb. 20, 2003, 117 Stat. 297.)

REFERENCES IN TEXT

The National Environmental Policy Act of 1969, referred to in subsec. (a), is Pub. L. 91-190, Jan. 1, 1970, 83

Stat. 852, as amended, which is classified generally to chapter 55 (§4321 et seq.) of Title 42, The Public Health and Welfare. For complete classification of this Act to the Code, see Short Title note set out under section 4321 of Title 42 and Tables.

CHAPTER 82—GREAT APE CONSERVATION

Sec.	
6301.	Findings and purposes.
6302.	Definitions.
6303.	Great ape conservation assistance.
6304.	Great Ape Conservation Fund.
6305.	Authorization of appropriations.

§ 6301. Findings and purposes**(a) Findings**

Congress finds that—

(1) great ape populations have declined to the point that the long-term survival of the species in the wild is in serious jeopardy;

(2) the chimpanzee, gorilla, bonobo, orangutan, and gibbon are listed as endangered species under section 1533 of this title and under Appendix I of the Convention on International Trade in Endangered Species of Wild Fauna and Flora (27 UST 1087; TIAS 8249);

(3) because the challenges facing the conservation of great apes are so immense, the resources available to date have not been sufficient to cope with the continued loss of habitat due to human encroachment and logging and the consequent diminution of great ape populations;

(4) because great apes are flagship species for the conservation of the tropical forest habitats in which they are found, conservation of great apes provides benefits to numerous other species of wildlife, including many other endangered species;

(5) among the threats to great apes, in addition to habitat loss, are population fragmentation, hunting for the bushmeat trade, live capture, and exposure to emerging or introduced diseases;

(6) great apes are important components of the ecosystems they inhabit, and studies of their wild populations have provided important biological insights;

(7) although subsistence hunting of tropical forest animals has occurred for hundreds of years at a sustainable level, the tremendous increase in the commercial trade of tropical forest species is detrimental to the future of these species; and

(8) the reduction, removal, or other effective addressing of the threats to the long-term viability of populations of great apes in the wild will require the joint commitment and effort of countries that have within their boundaries any part of the range of great apes, the United States and other countries, and the private sector.

(b) Purposes

The purposes of this chapter are—

(1) to sustain viable populations of great apes in the wild; and

(2) to assist in the conservation and protection of great apes by supporting conservation programs of countries in which populations of great apes are located and by supporting the CITES Secretariat.
