

**(f) Department of Energy activities relating to fossil fuels****(1) Clean coal**

The Secretary of Energy shall cooperate with Polish officials and experts to retrofit a coal-fired commercial powerplant in the Krakow, Poland, region with advanced clean coal technology that has been successfully demonstrated at a comparably scaled powerplant in the United States. Such retrofit shall be carried out by one or more United States companies using United States technology and equipment manufactured in the United States. The Secretary may vest title in any property acquired under this paragraph in an entity other than the United States.

**(2) Equipment assessment**

The Secretary of Energy shall cooperate with Polish officials and experts and companies within the United States to assess and develop the capability within Poland to manufacture or modify boilers, furnaces, smelters, or other equipment that will enable industrial facilities within Poland to use fossil fuels cleanly. The Secretary may vest title in any property acquired under this paragraph in an entity other than the United States.

**(3) Authorization of appropriations**

To carry out paragraphs (1) and (2) of this subsection, there are authorized to be appropriated \$30,000,000 for the 3-year period beginning October 1, 1989. Not more than \$10,000,000 of the funds appropriated under this paragraph may be used to carry out the requirements of paragraph (1).

**(g) Priority for efficient energy use**

In view of the high energy usage per unit of output in Hungary and Poland, the Secretary of Energy shall give high priority to assisting officials of Poland and Hungary in improving the efficiency of their energy use, through emphasis on such measures as efficient motors, lights, gears, and appliances and improvements in building insulation and design.

**(h) Alternative investments in energy in Hungary**

It is the sense of the Congress that the Executive branch should work with the Government of Hungary to achieve environmentally safe alternative investments in energy efficiency, particularly with regard to projects along the Danube River.
