

any assistance by such institutions, using funds appropriated or otherwise made available pursuant to any provision of law, for the production or extraction of any commodity or mineral for export, if—

(1) such commodity or mineral, as the case may be, is in surplus on world markets; and

(2) the export of such commodity or mineral, as the case may be, would cause substantial injury to the United States producers of the same, similar, or competing commodity or mineral.

(Pub. L. 99-472, § 22, Oct. 15, 1986, 100 Stat. 1210.)

SIMILAR PROVISIONS

Pub. L. 115-31, div. J, title VII, § 7025(c), May 5, 2017, 131 Stat. 633, provided that: “The Secretary of the Treasury shall instruct the United States executive directors of the international financial institutions, as defined in section 7034(r)(3) of this Act [set out as a note below], to use the voice and vote of the United States to oppose any assistance by such institutions, using funds appropriated or made available by this Act [div. J of Pub. L. 115-31, 131 Stat. 589, see Tables for classification], for the production or extraction of any commodity or mineral for export, if it is in surplus on world markets and if the assistance will cause substantial injury to United States producers of the same, similar, or competing commodity.”

Section, Pub. L. 96-259, title IV, § 401, June 3, 1980, 94 Stat. 431, related to communication and dissemination of information respecting export opportunity enhancement.

§ 262j. Use of renewable resources for energy production

(a) Promotion, etc., by United States in connection with international financial institutions

The United States Government, in connection with its voice and vote in the Inter-American Development Bank, the African Development Fund, and the Asian Development Bank, shall encourage such institutions—

(1) to promote the decentralized production of renewable energy;

(2) to identify renewable resources to produce energy in rural development projects and determine the feasibility of substituting them for systems using fossil fuel;

(3) to train personnel in developing technologies for getting energy from renewable resources;

(4) to support research into the use of renewable resources, including hydropower, biomass, solar photovoltaic, and solar thermal;

(5) to support an information network to make available to policymakers the full range of energy choices;
