§ 262p-8. Modification of the Enhanced HIPC Initiative

(a) Authority

(1) In general

The Secretary of the Treasury should immediately commence efforts within the Paris Club of Official Creditors, the International Bank for Reconstruction and Development, the International Monetary Fund, and other appropriate multilateral development institutions to modify the Enhanced HIPC Initiative so that the amount of debt stock reduction approved for a country eligible for debt relief under the Enhanced HIPC Initiative shall be sufficient to reduce, for each of the first 3 years after May 27, 2003, or the Decision Point, whichever is later—

(A) the net present value of the outstanding public and publicly guaranteed debt of the country—

(i) as of the decision point¹ if the country has already reached its decision point;¹ or

(ii) as of May 27, 2003, if the country has not reached its decision point,¹

to not more than 150 percent of the annual value of exports of the country for the year preceding the Decision Point; and

(B) the annual payments due on such public and publicly guaranteed debt to not more than—

(i) 10 percent or, in the case of a country suffering a public health crisis (as defined in subsection (e)), not more than 5 percent, of the amount of the annual current revenues received by the country from internal resources; or

(ii) a percentage of the gross national product of the country, or another benchmark, that will yield a result substantially equivalent to that which would be achieved through application of clause (i).

(2) Limitation

In financing the objectives of the Enhanced HIPC Initiative, an international financial institution shall give priority to using its own resources.

(b) Relation to poverty and the environment

Debt cancellation under the modifications to the Enhanced HIPC Initiative described in subsection (a) should not be conditioned on any agreement by an impoverished country to implement or comply with policies that deepen poverty or degrade the environment, including any policy that—

(1) implements or extends user fees on primary education or primary health care, including prevention and treatment efforts for HIV/AIDS, tuberculosis, malaria, and infant, child, and maternal well-being;

(2) provides for increased cost recovery from poor people to finance basic public services such as education, health care, clean water, or sanitation;

(3) reduces the country's minimum wage to a level of less than \$2 per day or undermines workers' ability to exercise effectively their internationally recognized worker rights, as defined under section 262p-4p of this title;² or

(4) promotes unsustainable extraction of resources or results in reduced budget support for environmental programs.

(c) Conditions

A country shall not be eligible for cancellation of debt under modifications to the Enhanced HIPC Initiative described in subsection (a) if the government of the country—

(1) has an excessive level of military expenditures;

(2) has repeatedly provided support for acts of international terrorism, as determined by the Secretary of State under section 4605(j)(1) of title 50 or section 2371(a) of this title;

(3) is failing to cooperate on international narcotics control matters; or

(4) engages in a consistent pattern of gross violations of internationally recognized human rights (including its military or other security forces).

(d) Programs to combat HIV/AIDS and poverty

A country that is otherwise eligible to receive cancellation of debt under the modifications to the Enhanced HIPC Initiative described in subsection (a) may receive such cancellation only if the country has agreed—

(1) to ensure that the financial benefits of debt cancellation are applied to programs to combat HIV/AIDS and poverty, in particular through concrete measures to improve basic services in health, education, nutrition, and other development priorities, and to redress environmental degradation;

(2) to ensure that the financial benefits of debt cancellation are in addition to the government's total spending on poverty reduction for the previous year or the average total of such expenditures for the previous 3 years, whichever is greater;

(3) to implement transparent and participatory policymaking and budget procedures, good governance, and effective anticorruption measures; and

(4) to broaden public participation and popular understanding of the principles and goals of poverty reduction.
